#### **MODEL UNITS**

MODEL UNITS, IF ANY, ARE INTENDED TO PROVIDE YOU WITH A GENERAL IDEA OF WHAT A FINISHED UNIT MIGHT LOOK LIKE. UNITS BEING OFFERED FOR SALE MAY VARY FROM THE MODEL UNIT IN TERMS OF FLOOR PLAN, FIXTURES, FINISHES, AND EQUIPMENT. #### ASSOCIATION INSURANCE

THE EXTENT TO WHICH ASSOCIATION INSURANCE PROVIDES COVERAGE FOR THE BENEFIT OF LOT OWNERS (INCLUDING FURNISHINGS, FIXTURES, AND EQUIPMENT IN A LOT) IS DETERMINED BY THE PROVISIONS OF THE DECLARATION AND THE ASSOCIATION'S INSURANCE POLICY, WHICH MAY BE MODIFIED FROM TIME TO TIME. YOU AND YOUR PERSONAL INSURANCE AGENT SHOULD READ THE DECLARATION AND THE ASSOCIATION'S POLICY PRIOR TO CLOSING TO DETERMINE WHAT INSURANCE IS REQUIRED OF THE ASSOCIATION AND LOT OWNERS, LOT OWNERS' RIGHTS AND DUTIES, WHAT IS AND IS NOT COVERED BY THE ASSOCIATION'S POLICY, AND WHAT ADDITIONAL INSURANCE YOU SHOULD OBTAIN.

- Annexation of Additional Area. The Declarant intends to develop the Property for residential use and may, in Declarant's sole discretion, annex some or all of the Annexation Area to the Property. Some or all of the Annexation Area may be annexed to the Property and brought within the provisions of this Declaration by Declarant, its successors or assigns, from time to time, without the approval of any Owner or the Association. The Declarant shall not be required to annex certain portions of Annexation Area to the Property in any particular order, nor shall the Declarant be required to annex all of the Annexation Area to the Property. If the Declarant elects to annex some or all of the Annexation Area to the Property, the recording of all Supplements associated therewith must occur no later than the date that is 50 years after the date that this Declaration is recorded. The foregoing notwithstanding, no more than 100 additional Lots may be created by annexation. SOME OF THE EFFECTS OF ANNEXATION INCLUDE AN INCREASE IN THE NUMBER OF LOTS, AN INCREASE IN THE NUMBER OF PERSONS USING THE COMMON AREAS, AN INCREASE IN THE NUMBER OF

The Owner of two or more contiguous Lots, however, may build a single Residence on the contiguous lots, upon complying with applicable County requirements and the provisions of this Declaration. If a single Residence is constructed on one or more contiguous lots then, for purposes of voting and assessments, such Lot will be deemed to consist of one Lot.
  - 2.4 Allocated Interests. Exhibit C sets forth the Allocated Interests of each Lot.
- 2.5 <u>Communities</u>. Lots may be located in one or more Communities. Each such Lot will be the subject of a Community Declaration and each Community will have a separate a Community Association.

Any view that exists at any point in time from a Lot may be impaired or obstructed by further construction within or outside the Property, including by construction of Improvements (including landscaping) by the Declarant, the Association, a Community Association, a Builder or other Owners, and by the natural growth of landscaping. - 3.1 <u>Organization</u>. The Association is a Washington nonprofit corporation and has the powers and duties described in the Governing Documents. The Association shall perform its functions in accordance with the Governing Documents and Washington law. No Governing Document, other than this Declaration, may be amended, modified or interpreted so as to be inconsistent with this Declaration.
- 3.2 <u>Membership</u>. Each Owner will be a Member of the Association. If a Lot is owned by more than one Person, all co-Owners will share the privileges of membership, subject to reasonable Board regulation and the restrictions on voting described in <u>Section 3.5</u>, and all such co-Owners will be jointly and severally obligated to perform the responsibilities of Owners. The membership rights of a non-individual Entity may be exercised by any officer, director, partner, member, manager or trustee, or by the individual designed from time to time by the Owner in a written instrument provided to the Association. Membership in the Association is appurtenant to, and may not be separated from, the ownership of each Lot to which it relates. Membership in the Association may not be transferred, pledged or alienated in any way, except upon either the transfer of ownership of the Lot to which it is appurtenant, and then only to the new Owner, or the transfer to a First Mortgagee. Any attempt to make a prohibited transfer will be void. If any Owner fails or refuses to transfer the membership registered in such Owner's name to the purchaser of the Lot, the Association may record the transfer upon its books and thereupon the old membership outstanding in the name of the seller will be void.
- 3.3 Joint Ownership; Joint and Several Liability. If an Owner's interest in a Lot or an Interval Owner's interest in a Lot pursuant to an Interval Ownership Plan is held by more than one Person (in tenancy in common, as joint tenants or otherwise), the membership appurtenant to that Lot will be shared by all such Persons in the same proportionate interest and by the same type of ownership as the Lot or Interval Ownership Plan is held, subject to reasonable Board regulation and restrictions on voting described in Section 3.5. All such Persons will be jointly and severally liable under the Governing Documents and will be jointly and severally obligated to perform the responsibilities of the specific Owner or Interval Owner, as the case may be. In a multiple interest owner situation, if more than one Person seeks to exercise the vote, the voting privilege will be suspended. Neither the Association nor the Declarant will have any obligation to confirm, as among such multiple interest owners, which of the Persons has the right to vote.
- 3.4 <u>Board Appointments; Special Declarant Rights.</u> During the Development Period, the Declarant will have the right to appoint and remove the directors of the Board and the officers of the Association; *provided*, that: (i) not later than 60 days after conveyance of 25% of the Lots that may be created to Owners other than the Declarant, at least one member and not less than 25% of the members of the Board must be elected by the Members other than the Declarant; and (ii) not later than 60 days after conveyance of 50% of the Lots that may be created to Owners other than the Declarant, not less than one-third of the members of the Board must be elected by Owners other than the Declarant. #### 3.5 <u>Voting</u>

- (a) <u>Voting Representatives</u>. Each Community shall elect a Voting Representative. Except as provided in the Bylaws of the Association or this Declaration, the Voting Representative will be responsible for casting all votes attributable to Lots owned by Members in that Community, with respect to matters put to a vote of the Members. Members may not cast individual votes separate from the vote cast by the Voting Representative. Until a Voting Representative is appointed for a Community, all Owners within that Community will be entitled to cast the votes attributable to their Lots on Association matters submitted to a Member vote.
- (b) Appointment and Removal of Voting Representatives. A Voting Representative must be appointed within one year after the conveyance of Community by a Community Declaration. Each Member who owns a Lot in the Community of that Community Association will be entitled to cast one vote for each Lot owned by that Member. The candidate who receives the greatest number of votes will be the Voting Representative. The candidate who receives the next greatest number of votes will be the alternative Voting Representative, who shall vote on Association matters when the Voting Representative is unable to do so. Voting Representatives are appointed for a one-year term. A Community Association Voting Representative may be removed by majority vote of the Members who own Lots in that Community. If a Community fails to appoint a Voting Representative as required in this Section, the Board may appoint a Voting Representative until such time as the Community makes its own appointment. A Board-appointed Voting Representative must be an Owner in the Community for which that Person is appointed the Voting Representative.
- Association Powers and Duties. The Association, through its Board, may acquire, hold and dispose of tangible and intangible personal property and real property. The Declarant may convey to the Association personal property and fee title, leasehold or other property interests in any of the Property, improved or unimproved. The Association shall accept and maintain such portions of the Property at its expense for the benefit of its Members. The Association shall repair, maintain and replace the Common Areas and the Improvements thereon and ensure that they comply with all applicable laws, statutes, ordinances and regulations of any governmental authority. The Association's repair, maintenance and replacement obligations are subject to Section 7.8. The Association may provide public health and safety services within or for the benefit of the Property; provided, that it obtains all required licenses to do so. The Association may provide for the collection, removal and disposal of solid wastes from the Property. The Association may promote the Timber Valley Estates community as a whole. In the discharge of its duties and the exercise of its powers, but subject to the limitations set forth in this Declaration, the Board may borrow funds on behalf of the Association and, to secure the repayment of such funds, assess each Lot (and the Owner thereof) for said Lot's pro rata share of said borrowed funds. The obligation to pay the pro rata share is a lien against each Lot. The Owner of a Lot may remove the Owner's Lot from the lien by payment of the assessment. Subsequent to any such payment, discharge, or satisfaction, the Lot will be free and clear of the liens so paid, satisfied, or discharged. Such partial payment, satisfaction, or discharge does not prevent the lienor from proceeding to enforce the lienor's rights against any Lot for any lien not so paid, satisfied, or discharged. The Association shall effectuate the purposes of this Declaration, including, but not limited to: (i) adopting and enforcing Rules;

- (ii) adopting Budgets, (iii) conducting Reserve Studies; (iv) controlling and administering the Association's funds; (v) levying assessments and (vi) enforcing the covenants set forth in the Governing Documents.
- 3.7 <u>Architectural Review</u>. Each Owner, by accepting a deed or other instrument conveying any interest in any portion of the Property, acknowledges that, as a developer of the Property and as an Owner of the Property, Declarant has a substantial interest in ensuring that the Improvements within the Property enhance that Declarant's reputation as a community developer and do not impair that Declarant's ability to market, sell or lease its property. Therefore, each Owner agrees that no Improvements may be commenced, constructed or installed on such Owner's Lot unless and until the Declarant or its designee has given its prior written approval for such work. All work must strictly conform to plans and specifications approved by the Declarant or its designee.
- Declarant Authority; Delegation. Until the expiration of the (a) Development Period, the Declarant will have the sole authority to review and approve any Improvements to be constructed on the Property. No approval, disapproval or other action or inaction by the Declarant (or its designee, including the ARC) will be deemed to constitute any warranty or representation regarding; (i) compliance with laws, regulations or ordinances; (ii) compliance with guidelines, plans or designs; or (iii) workmanship. Each Owner shall be solely responsible for such compliance - including, without limitation, compliance with any operations and maintenance manuals prepared by or for a Declarant or the Association that relate to Systems (which manuals will be made available by the Association to Owners). From time to time prior to the expiration of the Development Period, the Declarant may, but will not be obligated to, delegate all or a portion of its reserved rights under this Section 3.7 to the ARC. Any such delegation must be in writing, specifying the scope of responsibilities delegated, and shall be subject to (a) the Declarant's right to revoke such delegation at any time and to reassume jurisdiction over matters previously delegated and (b) the Declarant's right to veto any decision that Declarant determines, in its sole discretion, to be inappropriate or inadvisable for any reason. After the expiration of the Development Period, the ARC will have the powers reserved to the Declarant under this Section 3.7 and the Declarant will be deemed to have irrevocably designated such powers.
- (b) ARC. Subject to the Declarant's rights in Section 3.7(a), the Board shall establish and continuously maintain the ARC and appoint its members. Members of the ARC may include members of the Board, but need not be Owners. The ARC shall develop and enforce rules and guidelines, criteria, fees and procedures intended to control the architectural, landscaping and aesthetic features of the Property. The ARC shall review the external design of proposed Improvements and approve or disapprove the details and written plans and specifications showing the nature, kind, shape, materials, color, architectural character and location of proposed Improvements and exterior additions to or changes or alterations in any of the foregoing. Guidelines developed by the ARC must provide that the ARC will approve or disapprove plans and specifications within 30 days of notice to the Owner that the ARC has received all required submissions and, if ARC approval or disapproval is not given within such 30-day period, the plans and specifications will be deemed approved.

#### 3.8 Insurance

The Association, acting through its Board, is hereby appointed and is deemed trustee of the interests of all named insureds under policies of insurance purchased and maintained by the Association. All insurance proceeds under any such policies will be paid to the Board as a trustee. The Board has full power to receive and to receipt for the proceeds and to deal therewith as provided herein. The Board is hereby granted the authority to negotiate loss settlements with the appropriate insurance carriers. Any two directors may sign a loss claim form and release form in connection with the settlement of a loss claim, and such signatures are binding on all the named insureds.
- 3.9 <u>Casualty: Condemnation</u>. The Board shall notify the Owners of any event of substantial damage to any Common Area, or of any threatened acquisition of a Common Area by eminent domain or other proceedings. All insurance proceeds, condemnation proceeds, damages or other proceeds will be paid to the Association. Except as provided in this <u>Section 3.9</u>, as soon as practicable after an event causing damage to a Common Area, the Association shall diligently pursue to completion the repair and reconstruction of the Common Area. Assessments will not be abated as a result of any such damage. If the Declarant elects, during the Development Period, and at all other times, Members representing at least 67% of the Association agree in writing, not to repair damage to a Common Area and no alternative Improvements are authorized, then the damaged Property will be restored to its natural state and maintained as an undeveloped portion of the Common Area by the Association in a neat and attractive condition.
- 3.10 Approval of Association Proceedings. Except as provided in this Section 3.10, the Association shall not commence a judicial or administrative proceeding, including, without limitation, any proceeding described in Section 12, without the approval of the Members representing at least 67% of the total votes in the Association. This Section 3.10 will not apply to (i) actions brought by the Association to enforce the Governing Documents (including, without limitation, the foreclosure of liens), (ii) the collection of assessments; (iii) proceedings involving challenges to ad valorem taxation; (iv) counterclaims brought by the Association in proceedings instituted against it; or (v) actions brought by the Association against any contractor or vendor arising out of a contract for services or supplies between the Association and such contractor or vendor. This Section 3.10 cannot be amended unless such amendment is approved by the percentage of votes, and pursuant to the same procedures, necessary to institute proceedings as provided above.

- 3.11 <u>Implied Rights and Obligations</u>. The Association shall perform all of the duties and obligations imposed on it expressly by the Governing Documents, together with every other duty or obligation reasonably to be implied by the express provisions of the Governing Documents or reasonably necessary to satisfy any such duty or obligation. The Association may exercise any other right or privilege (i) given to it expressly by the Governing Documents, (ii) reasonably to be implied from the existence of another right or privilege given expressly by the Governing Documents or (iii) reasonably necessary to effectuate any such right or privilege.
- 4. <u>Land Use Classifications; Easements.</u> The following Land Use Classifications and provisions describing ownership, use, and maintenance will be applicable to the Property, which will be conveyed and occupied subject thereto.
- Residential Property. Residential Property is the Land Use Classification 4.1 assigned to that portion of the Property upon which Residences may be constructed. Except for Improvements related to construction, development, sales and rental activities permitted on Residential Property, Residential Property must include only Residences and improvements associated with Residential Purposes and uses. No commercial operations of any nature may be carried on in the Residential Property except: (i) as provided in Section 5.4 or Section 5.17(c); (ii) the construction, development and sale or rental of the Residential Property or portions thereof (including, but not limited to, Residences constructed thereon); and (iii) direct accessory services to the Residential Property or for Residential Purposes such as utilities, maintenance, and such other services as the Declarant or the Board may by written consent thereto deem appropriate. In addition to the provisions of this Declaration, any applicable Supplement and the Rules, the Residential Property may also be subject to the terms of Community Declarations. Community Declarations may further restrict the property being designated pursuant thereto including, but not limited to (a) the type of Residences that may be constructed thereon and (b) the establishment of such other amenities, benefits, covenants, easements, restrictions or provisions as the Declarant may deem appropriate. The entity responsible for the administration, management, operation, and maintenance of Residential Property will be set forth in the Community Declaration to which such Residential Property is subject, if any, or otherwise by the Declarant.
- 4.2 <u>Common Areas</u>. Those portions of the Property assigned Land Use Classifications by the Declarant of "<u>Drainage/Utility Areas</u>," "<u>Entranceways</u>," "<u>Landscape Areas</u>," and "<u>Roadways</u>," in the aggregate; and all easements or tracts conveyed or dedicated to the Association and all use rights appurtenant thereto, all as indicated in this Declaration, a Supplement, or any other Governing Documents, comprise the Common Areas. All such areas must be designated by the Declarant. Certain Common Areas are hereby designated as Limited Common Areas, as described in Exhibit C.
- (a) <u>Use; No Public Dedication</u>. Except as may be otherwise specifically provided in this Declaration, the Common Areas will be for the sole and exclusive use of the Declarant, the Association, the Community Association (as applicable), the Owners, and their family members, guests, licensees, invitees and lessees (and their family members, guests and invitees). Any real property conveyed, leased, or the use of which has been granted by Declarant or any third party to the Association as Common Areas is not and will not by such conveyance, lease or grant be deemed dedicated for use by the general public but is, and will be, deemed restricted for the common use and enjoyment of the Persons granted easement rights under this Declaration.
- (b) <u>Administration</u>. The administration, management, operation and maintenance of Common Areas will be the responsibility of the Association, as provided in this Declaration, a Supplement or any other Governing Documents. The Association may contract with third

parties to operate facilities or conduct activities on the Common Areas, which third parties may charge user fees for the use of such facilities or participation in such activities, or the Association may, in lieu thereof, operate such facilities or activities and likewise charge such fees. Neither the operation of any such facilities or activities, nor the fact that a charge is made for the use of any such facilities will be deemed a commercial use or activity in violation of the provisions of this Declaration with respect to the use of the Common Areas as long as the use of such Common Areas is consistent with the provisions of this Declaration.

- (c) <u>Turnover</u>. The Declarant shall convey to the Association fee simple title to the Common Areas and the personal property and Improvements appurtenant thereto, subject to the terms and provisions of this Declaration, all applicable Supplements and Governing Documents; real estate taxes; all applicable zoning ordinances; such facts as an accurate survey would show; and all covenants, easements, restrictions and reservations then of record. Declarant shall convey to the Association by quitclaim deed all portions of the Common Areas not previously conveyed to the Association within 30 days after the transition meeting described in <u>Section 3.4</u> and shall deliver to the Board the materials required to be delivered under RCW 64.90.420. At the time of the conveyance of any Common Areas, the Association must accept the Common Areas, and the personal property and Improvements appurtenant thereto. The Association agrees to accept such property in its "AS IS" condition at the time of conveyance. The Declarant may convey property to the Association in either an improved or an unimproved condition, with or without any specific restrictions on its use. All costs and expenses of the conveyance will be paid for by the Association.
- (d) <u>Boundaries</u>. Notwithstanding anything to the contrary in this Declaration, during the Development Period, the Declarant may, in its sole discretion alter the boundaries of Common Areas and construct, develop or modify the Common Areas and any improvements, easements and use rights thereon or appurtenant thereto in a manner determined appropriate by the Declarant for the best interest of the Owners, without the consent of the Association, any Community Association or the Owners.
- (e) <u>Drainage/Utility Areas</u>. Drainage/Utility Areas include drainage easements, utility easements, water management tracts, canals, or canal easements that must be kept and maintained for irrigation, drainage or beautification purposes and for the installation, maintenance, construction, and repair of underground utility facilities serving the Property from time to time. Such facilities may include, without limitation, electricity, communication, sewer, water, gas, stormwater and lighting. The Declarant, however, is not under any obligation to provide all such facilities (and intends to provide only electricity and certain communication facilities). Notwithstanding the foregoing, the location of the drainage pattern may not be modified or relocated without the prior written consent, where applicable, of any governmental agency regulating same. In the event of a dissolution or termination of the Association, the administration and maintenance of the Drainage/Utility Areas will be conveyed only to another not-for-profit corporation or dedicated to an appropriate governmental agency agreeing to accept such conveyance or dedication.
- (f) <u>Entranceways</u>. Entranceways include the entry points to the Property and all Improvements thereon which may include, without limitation, gates, landscaping, streetlights, wall structures, fountains, signs, guardhouses and related facilities. Entranceways will be kept and maintained by the Association or its designee for all proper and normal purposes related thereto. No Improvement of any kind may be placed, kept, or suffered anywhere on an Entranceway without the prior written consent of the Declarant. Nothing in this Section 4.2(f), however, is intended to prevent any Owner with a Lot

adjacent to Montgomery Road from creating access points to Montgomery Road, consistent with County requirements. No such access points will be kept or maintained by the Association.

- (g) <u>Landscape Areas</u>. Landscape Areas include areas that are grassed, planted, irrigated landscaped, or paved in accordance with the improvement thereof by the Declarant or the requirements of any applicable governmental agencies. The Association or its designee will keep, maintain, repair and replace the Landscape Areas. The Declarant, for as long as it owns any portion of the Property, will have the absolute right, in its sole discretion, to modify its plan for beautification of the Property and specifically to modify the appearance of Landscape Areas and thereafter the Association will have the same right as long as the general quality of such beautification plan is not materially and detrimentally changed.
- (h) Roadways. Roadways include roads and all Improvements thereon including, but not limited to, utility lines, street lights (if any), and walkways, and will be kept and maintained by the Association or its designee, which designee may be a Community Association or member thereof as private roadways to provide a means of ingress and egress: (i) to and from publicly-dedicated streets; (ii) to and from private streets, and (iii) between and among all portions of the Property for the use of the Declarant and the Association and their designees, the Community Associations, the Owners and their family members, guests, invitees, licensees, lessees (and their family members, guests and invitees) and all governmental and quasi-governmental agencies and service entities having valid jurisdiction over the Property while engaged in their respective functions. Streetlights, walkways, and utility lines appurtenant to the Roadways will be installed as the Declarant or the Association or the Association's designee from time to time shall determine necessary or in accordance with the requirements of the applicable governmental agencies. All Roadways will be fire lanes, usable by governmental, quasi-governmental and private entities for fire protection and suppression services.
- 4.3 <u>Easements</u>. The Declarant hereby reserves, declares, grants and conveys to the Owners, the Association, the Community Associations (as applicable) and the other Persons described below, and reserve unto themselves and their designees the right, on behalf of themselves and the Association, to grant the following exclusive and nonexclusive easements on, upon, over, above, across, through and under all portions of the Property for the purposes and uses specified below:
- (a) <u>Common Areas</u>. Perpetual nonexclusive easements in favor of the Declarant, the Association, the Community Associations (as applicable), the Builders, their employees or other designees, and the Owners and their family members, guests, invitees and lessees to use the Common Areas for all proper and normal purposes including, but not limited to, ingress, egress and access for the furnishing of services and for such use of the facilities as for which the same are reasonably intended in accordance with the terms of this Declaration, a Supplement, or any other Governing Documents.
- (b) <u>Limited Common Areas</u>. Perpetual nonexclusive easements in favor of the Declarant, the Association, the Community Associations (as applicable), the Builders, their employees or other designees, the Owners whose Lots are benefitted by a Limited Common Area and their family members, guests, invitees and lessees to use the relevant Limited Common Areas for all proper and normal purposes including, but not limited to, ingress, egress and access for the furnishing of services and for such use of the facilities as for which the same are reasonably intended in accordance with the terms of this Declaration, a Supplement, or any other Governing Documents.
- (c) <u>Drainage</u>. Nonexclusive easements in favor of the Declarant, the Association, the Community Associations (as applicable), the Builders, their employees or other

designees, and the Owners for the use of Drainage/Utility Areas established throughout the Property and an easement for ingress, egress, and access to enter any portion of the Property in order to construct, maintain or repair any Drainage Areas and facilities thereon and appurtenances thereto.

- (d) <u>Encroachments</u>. Easements for encroachment in favor of the Declarant, the Association, the Community Associations (as applicable), the Builders, the Owners, and all persons entitled to use that portion of the Property in the event any portion of the Improvements located on any portion of the Property as a result of minor inaccuracies in survey, construction, or reconstruction or due to settlement or movement encroaches upon any other portion of the Improvements located on any other portion of the Property. Any easements for encroachment will include easements for the maintenance and use of the encroaching Improvements in favor of the Declarant, the Association, the Community Associations (as applicable), the Builders, the Owners and all their designees.
- (e) <u>Snow Clearance</u>. Easements in favor of the Declarant, the Association, the Community Associations (as applicable), the Builders, their employees or other designees for the storage and deposit of snow; *provided*, that the Person so storing or depositing the snow will use reasonable efforts to avoid unreasonable interference with one's ability to access a Lot.
- (f) <u>Utilities and Services</u>. Nonexclusive easements to provide for installation, service, repair and maintenance of the power, electric transmission, cable, light, telephone, data, security, gas, water, sewer, garbage, drainage, and other utilities and governmental or private services including police and fire protection and postal service including rights of ingress, egress, and access for persons and equipment necessary for such purposes for the benefit of the Declarant and the Association and all appropriate utility companies, agencies, franchises, governmental authorities or service providers.
- Right-of-Way. Nonexclusive perpetual easements over and upon the Entranceways and Roadways to provide ingress, egress and access to and from, through and between the Property and publicly dedicated streets, private streets and from portions of the Property, and for maintenance in favor of the Declarant, the Association, the Community Associations (as applicable), and all agents, employees, lessees, invitees or other designees of the Declarant, the Association, the Community Associations (as applicable); Builders; and the Owners, and their family members, guests, invitees and lessees and their family members, guests, and invitees; and all governmental and quasi-governmental authorities and service entities having jurisdiction over the Property while engaged in their respective functions. The foregoing notwithstanding, access to the private roads and driveways will be restricted to the Owners of those Lots abutting each private road or driveway, their family members, guests and invitees, the Declarant, Builders, the Association and any Community Association relating to those Lots.
- (h) <u>Declarant and Association Entry</u>. Easements for ingress, egress, and access in favor of the Declarant, the Association, and all agents, employees, or other designees of the Declarant or the Association to enter upon each Lot, Common Areas, or the Communities for the purpose of inspecting any construction, proposed construction, or improvements or fulfilling the rights, duties, and responsibilities of ownership, administration, maintenance, and repair of an Owner, Builder, Community Association or the Association, as applicable. Such easement will include an easement in favor of the Association and the Declarant to enter upon the Common Areas, now or hereafter created to use, repair, maintain, and replace the same for the purposes for which they are initially designed or hereafter redesignated or are otherwise determined to be reasonably suited. Notwithstanding the foregoing, nothing contained therein or herein will be interpreted to impose any obligation upon the Association or the

Declarant to maintain, repair, or construct any Lot or other Improvement that an Owner or Builder is required to maintain, construct or repair.

- (i) <u>Construction</u>. Nonexclusive easements in favor the Declarant, the Association, the Community Associations (as applicable), the Builders and their employees and other designees for the purpose of undertaking construction activities. Any Person utilizing the easement rights described in this Section shall by the end of each construction season, remove all debris and repair all damage occasioned by its construction activities.
- (j) <u>Additional Easements</u>. The Declarant until the expiration of the Development Period, and thereafter, the Association, will have the right to execute, without further authorization, such grants of easement or other instruments as may from time to time be necessary or desirable to grant easements over, under, across and upon the Property or portions thereof in accordance with or to supplement the provisions of this Declaration subject to the limitations as to then existing buildings or other permanent structures or facilities constructed within the Property. Such easements may be for the use and benefit of Persons who are not Members of the Association. With respect to the Declarant, but not the Association, such easements may be for portions of real property that is not part of the Property.

#### 5. Use Covenants and Restrictions

- 5.1 <u>Rules and Regulations</u>. The Declarant (during the Development Period) and the Board, in accordance with the Association Bylaws, will have the right to promulgate and impose Rules, and thereafter to modify, rescind and augment any of the same, with respect to the use, operation and enjoyment of the Property. No portion of the Property may be used in violation of any applicable Rule or other requirement of the Association established pursuant to the Governing Documents. Rules cannot unreasonably differentiate among Owners. Rules will become effective no sooner than 10 days after promulgation or amendment and after notice has been given to the Owners. The Association will retain a copy of the Rules and shall make them available for inspection by any Owner during normal business hours.
- 5.2 Enforcement. The Declarant reserves unto itself and its designees the right and the power: (i) to enforce the provisions of this Declaration (including the covenants, conditions, restrictions contained herein); and (ii) to delegate or assign, either exclusively or nonexclusively, any or all of its rights, powers, duties, or privileges hereunder to any Person, the Association, a Community Association, an Owner, a Builder, or to any other designee. If the Declarant does not enforce the provisions of this Declaration then the Association, acting through the Board, may enforce the same. If an Owner violates, or permits the violation of, the provisions of this Declaration, then the Declarant or the Association shall notify the Owner in writing of the specifics of the violation and the requirements to remedy or abate the violation. If the Owner is unable or unwilling to comply then, after notice and an opportunity to be heard in accordance with the Rules, the Declarant and the Association may do any or all of the following: (a) suspend an Owner's voting rights; (b) suspend an Owner's right to use any Common Areas; (c) bring a proceeding at law or in equity to restrain action, compel action or recover damages, (d) assess reasonable fines (including, without limitation, legal fees and costs incurred) which will constitute specific assessments for purposes of this Declaration and (e) enforce any lien created by this Declaration. Without limiting the generality of the foregoing, the Declarant or the Association may cause any vehicle parked in violation of the Governing Documents to be towed and impounded at the Owner's expense. The provisions of this Declaration will apply not only to Owners, but also to any other Person occupying or using an Owner's Lot under lease or by other permission. The failure of an Owner to notify

any Person of the existence of the provisions of this Declaration will not act to limit or divest the right of the Declarant or the Board of enforcement of these provisions against the Owner or such Person and, in addition, the Owner shall be responsible for any violations of these provisions by his or her tenants, delegates, licensees, invitees or guests, and by guests, licensees and invitees of his or her tenants. The failure of the Board or the Declarant to object to an Owner or another Person's failure to comply with the covenants and restrictions contained in this Declaration will not be deemed a waiver by the Board, or any other Person having an interest herein, of its rights to object to the same and to seek compliance therewith in accordance with the provisions of this Declaration.

- 5.3 Antennas, Satellite Dishes, Wind Turbines, Flagpoles. Any antenna, disc or satellite dish equal to or less than one meter in diameter, that falls within the scope of, or is otherwise covered by the Telecommunications Act of 1995, and the provisions of 47 C.F.R. 1.4000, as amended, or any subsequent federal or state law applicable to common interest communities, will be permitted on the Property. Wind Turbines may be erected on the Property, subject to the prior approval of the size and location of the wind turbine by the ARC. Flagpoles with a height less than 20 may be erected on the Property. A flagpole cannot be used as an antenna.
- 5.4 <u>Commercial Uses</u>; <u>Home Offices</u>. Except as provided in this <u>Section 5.4</u> and <u>Section 5.17(c)</u>, no commercial use or enterprise will be permitted in any Residence. Home offices and occupations are permitted if (i) the existence or operation of the business activity is not apparent by sight, sound or smell from outside the Residence; (ii) the business activity is consistent with the residential character of the Community and does not constitute a nuisance or a hazardous or offensive use or threaten the security or safety of other residents, as may be determined by the Board in its sole discretion; (iii) the business activity is allowed by applicable laws and ordinances; (iv) the business activity does not result in more than five commercial vehicles visiting the Lot per week (exclusive of daily mail delivery or delivery by common carrier, such as UPS or FedEx); and (v) the business activity does not involve the use of more than 25% of the Residence's residential floor area. Determinations as to the acceptability of home occupations will be made by the Board, acting reasonably, and home occupations may be subject to Rules other than those set forth in this Section 5.4.
- 5.5 <u>Compliance with Laws</u>. Any activity that violates local, state or federal laws or regulations, including, without limitation, environmental laws and regulations, will be deemed to be a violation of this Declaration; *provided*, however, that the Declarant or the Board may, but will not be obligated to, take enforcement with respect to such a violation.
- Damage; Rebuilding. If an Improvement is damaged or destroyed by casualty loss or other loss, the Owner thereof shall either (i) commence to rebuild or repair the damaged Improvement and diligently continue such rebuilding or repairing until completion (which must be completed within one year after the date of the incident or within such other time period as determined by the Board) or (ii) properly clear the damaged Improvement and restore or repair the Lot in a manner aesthetically satisfactory to the Board or ARC (which must be completed within one year after the date of the incident or within such other time period as determined by the Board). As to any such reconstruction of a destroyed Improvement, the same may only be replaced with Improvements as are approved by the Board as provided in this Declaration. Each Owner covenants and agrees with all other Owners and with the Association to carry property insurance for the full insurable replacement value (without deduction for depreciation) of all Improvements on his or her Lot, less a reasonable deductible, unless the Association or a Community Association (as applicable) carries such insurance (which they may, but are not obligated to do, under this Declaration). The requirements of this Section 5.6 will apply to any Community Association responsible for common property within the Property in the same manner as if the

Community Association were an Owner and the common property was a Lot. A Community Declaration may establish more stringent standards for rebuilding Improvements on the Lots within that Community and for clearing and maintaining the Lots if Improvements are not repaired or rebuilt.

- 5.7 Excavation. Excavation (including any drilling for a well) must be performed in accordance with any requirements adopted from time to time by the Declarant or the ARC. "Excavation" means any disturbance of the surface of the land that results in a removal of earth, rock or any other substance a depth of more than 18 inches below the natural surface of the land. Excepted from the foregoing is any portion of the Property owned by the Declarant or its nominee through the period of construction of Improvements on the Lots.
- 5.8 <u>Firearms</u>. No firearms may be discharged within the Property, except by government officials acting in their official capacity. No hunting is allowed anywhere on the Property.
- 5.9 <u>Fires.</u> No outside fires will be permitted in the Property except barbeques, outside fireplaces, manufactured fire pits, fire bowls and the like, which must be contained in receptacles and in areas approved by the Board. Owners must abide by all fire prevention and safety rules of the local fire district. The foregoing notwithstanding, controlled clearing or clean-up fires prior to or during construction will be permitted. No Owner will permit any condition upon its portion of the Property that creates a fire hazard or is in violation of fire prevention codes or regulations.
- 5.10 Improvements. No Improvements may be commenced, erected or maintained, nor may any exterior addition, change or alteration to any Improvement be made unless approved as provided in this Declaration. Construction must be performed in accordance with any site maintenance requirements adopted from time to time by the Declarant or the ARC. Construction must commence within 18 months from the date on which the Owner purchased the Lot. Once construction commences, it must be undertaken diligently and continuously. The construction of a new Residence must be completed within one year from the date of commencement, unless completion is delayed by acts of God, labor stoppages or similar causes beyond the reasonable control of the Owner or the Owner's contractors, employees or agents.
- Maintenance. Vegetation on Lots may remain in its natural state, except that no 5.11 unsightly growth or any other unsightly object or refuse that is Visible From a Neighboring Property may be placed or suffered to remain upon the Property. All lawns, landscaping and sprinkler systems and any property, Improvement and appurtenance must be kept in good, safe, clean, neat, and attractive condition. Excepted from the foregoing is any portion of the Property owned by the Declarant or its nominee through the period of construction of Improvements on said property. Upon the failure to maintain the premises as aforesaid to the satisfaction of the Declarant or the Association, and upon the Association's, a Community Association's (as applicable), an Owner's, or a Builder's failure to make such correction within 30 days of being given written notice by the Declarant or the Association (which written notice does not have to be given by the Declarant or the Association in the case of emergency, in which event, the Declarant or the Association may without any prior notice directly remedy the problem), the Declarant or the Association may, in furtherance of the Declarant's overall plan for its Property, enter upon such premises and make such improvements or correction as may be necessary, the costs of which will be paid by the non-performing party, or the Declarant or the Association may bring an action at law or in equity. Such entry by the Declarant or the Association or their agents will not be a trespass and by acceptance of a deed for a Lot, such party has expressly given the Declarant and the Association the continuing permission to do so which permission may not be revoked. If any Owner, Builder, the Association or a Community Association (as applicable) fails to make payment within 15 days after request to do so by the

Declarant or the Association, as appropriate, the payment requested shall be a lien in accordance with provisions of Section 7.7(c).

- 5.12 <u>Manufactured Homes</u>. No Manufactured Homes will be allowed to be stored or suffered to remain upon the Property; *provided*, that the Declarant or any Builder may install a Manufactured Home to use as an office or in connection with development or construction activities.
- 5.13 <u>Mining; Drilling; Logging</u>. No portion of the Property may be used for mining, quarrying, drilling, boring or exploring for or removing oil, gas or other hydrocarbons, minerals, rocks, stones, gravel or earth or for logging or timber harvest. The foregoing notwithstanding: (i) an Owner may undertake logging activities solely for the purpose of thinning for fire protection and (ii) the Declarant may engage in any of the above-described activities with respect to Property it owns.
- 5.14 <u>Nuisance</u>. Nothing may be done on the Property which (i) may be or may become an annoyance or nuisance to any Person or a Community, (ii) would increase the premium of any insurance carried for the benefit of the Property or (iii) would cause such insurance to be cancelled or not renewed. No obnoxious, unpleasant, unsightly, or offensive activity may be carried on, nor may anything be done, which can be reasonably construed to constitute a nuisance, public or private in nature. Any question with regard to the interpretation of this <u>Section 5.14</u> will be determined by the Board in its sole discretion.
- 5.15 <u>Non-Residential Leasing.</u> No Residential Property may be leased for non-residential purposes. Without limiting the generality of the foregoing, no Residential Property may be leased for storage or dumping.
- 5.16 <u>Obstructions</u>. No Improvement, planting or other material may be placed or permitted to remain on any portion of the Property that may damage or unreasonably interfere with (i) any easement or (ii) the installation or maintenance of utilities, or which may unreasonably change, obstruct or retard the direction or flow of any drainage channels.

#### 5.17 Occupancy

- (a) <u>Limitations</u>. No portion of the Property may be used for living or sleeping purposes other than rooms designed for living or sleeping in a completed structure or camping areas specifically designated in the Rules. No room in any structure may be used for living or sleeping purpose by more persons that it was designed to reasonably accommodate.
- (b) <u>Residential Leases</u>. Owners may lease their Residence to others for residential purposes, except as may be prohibited or limited in the Rules, a Supplement or a Community Declaration.
- (c) <u>Bed and Breakfast Operations</u>. Anything in this Declaration to the contrary notwithstanding, Bed and Breakfast operations will be a permissible use of a Residential Property so long as (i) such use is permitted by law, (ii) the Owner obtains and maintains a permit from the Association for such use (which permit may be granted, denied or revoked in the Association's sole, but not arbitrary and capricious, discretion) and (iii) the use is conducted in compliance with applicable Rules. Neither the Declarant nor the Association (including without limitation its directors and committees) represents or warrants that operation of a Bed and Breakfast is lawful or will remain so in the future.

- (c) <u>Obnoxious Animals</u>. Obnoxious animals, fowl, or reptiles will not be kept or permitted to be kept anywhere on the Property. The determination of what is or what may be an obnoxious animal, fowl, or reptile will be determined by the Board in its sole discretion.
- (d) <u>Indemnity</u>. An Owner, by the purchase of his or her Lot, agrees to indemnify the Declarant and the Association and hold them harmless against loss or liability of any kind arising from his or her having any animal at the Property.
- (e) <u>Rules; Supplements, Community Declarations</u>. The Rules, Supplements and Community Declarations may further restrict the keeping of pets and animals within a Community.
- 5.19 Signs. Except for political yard signs, no signs, freestanding or otherwise installed, may be erected or displayed in or on any portion of the Property unless the placement, character, form, size, lighting and time of placement of such sign is first approved by the Board. Excepted from the foregoing are marketing signs posted by the Declarant or by Builders with the approval of the Declarant. Political yard signs must be removed within five days after the applicable election or vote. No sales price may be displayed on any sign, other than signs posted by the Declarant or as otherwise permitted by the Board. No flashing signs will be permitted. All signs must also conform with governmental codes and regulations and with any Rules established by the Board. The Board may summarily remove and destroy all unauthorized signs and same will not be deemed a trespass. Notwithstanding anything contained herein, the Board will not be under any obligation to approve any signs.
- 5.20 <u>Snow Clearance</u>. Snow clearance is the responsibility of the Association (excluding private driveways). Owners shall not clear or remove snow from their portion of the Property onto Common Areas or onto the Property of other Owners. Owners may, however, clear snow from their driveways and sidewalks and create berms so long as the berms are placed in locations and in such a manner that will not cause a safety hazard to any Owner or others or impede the Association's ability to clear snow from other portions of the Property. The Declarant and the Association have easements for snow clearance, as described in <u>Section 4.3(e)</u>.
- 5.21 <u>Temporary Structures</u>. No tents or temporary Improvements, other than those belonging to the Declarant or a Builder, will be permitted on the Property unless their size, appearance, and temporary location have first been approved by the Board. foregoing notwithstanding the Declarant or a Builder may utilize temporary above-ground utility lines through the period of construction of Residences or other Improvements.

#### 5.23 Vehicles

- (a) <u>Certain Vehicles</u>. No commercial truck, commercial van, bus, recreation vehicle, mobile home, camper, trailer or inoperable vehicle that is Visible From a Neighboring Property may be kept on the Property (but such vehicles may be kept in a garage when not in use or while they are being repaired). Commercial vehicles and commercial vans include all trucks or vans which bear signs or have printed on the sides, front, or rear of same reference to any commercial undertaking or enterprise.
- (b) <u>Boats</u>. No boat that is Visible From a Neighboring Property may be kept on the Property except as determined by the Board or provided in a Community Declaration (but boats may be kept in a garage when not in use).

Common Areas, abandonment of a Lot or any other means. No diminution or abatement of assessments or set-off may be claimed or allowed for any alleged failure of the Association or Board to take some action or perform some function required of it, or for inconvenience arising from the making of repairs or replacements, or from any other action it takes. Conveyance of a Lot not made in exchange for valuable monetary consideration is exempt from conveyance assessments.
- (b) <u>County Activities</u>. If the County accepts or assumes responsibility for any portion of the Common Areas, and assesses the Association for operational, maintenance or other charges associated with the Common Areas, then the Association may either include such charges as part of the Common Expenses or levy a special or specific assessment for payment of such charges.

Mediation; Arbitration. Except for the Excluded Matters, any claim, controversy 12.1 or dispute (collectively, "Disputes") by or among the Declarant, the Association, any Community Association, any Owner, or any of them, arising out of or relating to the Governing Documents or the Property will be resolved pursuant to the provisions of this Section 12.1. Each dispute will be subject to mediation and, if not resolved by mediation, will be resolved by binding arbitration, conducted pursuant to the Revised Code of Washington, Chapter 7.04A, modified as described herein. Demand for arbitration must be in writing. Arbitration must be conducted by one arbitrator. If the parties cannot agree to an arbitrator within 30 days of the initial demand for arbitration, any party may petition the Spokane County Superior Court for the appointment of an arbitrator by the Court. Once appointed, the arbitrator must allow discovery as described in the Civil Rules for Washington Superior Court. The hearing will be conducted within 120 days after the arbitrator's appointment, unless otherwise agreed in writing by all of the parties. The arbitrator must render a written decision within 30 days after completion of the hearing. The arbitration will be held in Spokane, Washington, or in such other place as may be agreed upon at the time by the parties. Judgment on the award rendered by the arbitrator may be entered in any court having jurisdiction thereof. Each party shall pay its own expenses in connection with the arbitration proceedings and the parties will timely pay equal shares of the arbitrator's compensation and expenses, subject to reimbursement pursuant to the following sentence. If any party commences arbitration in connection with this Agreement or its breach, the prevailing party in such arbitration will be entitled to reimbursement for its reasonable costs (including arbitration expenses) and attorneys' fees incurred. Disputes will be barred from arbitration if such Disputes would be barred in a litigation proceeding under applicable statutes of limitations. The mediation and arbitration agreement contained in this Section 12.1 will survive the conveyance by any party of its interest or involvement in the Property or any Lot therein, as well as the termination of this Declaration.

12.2 Excluded Matters. The Excluded Matters described in this Section 12.2 will not be subject to the procedures described in Section 12.1. The prevailing party with respect to an Excluded Matter will be entitled to reimbursement for its reasonable costs and attorneys' fees incurred. The "Excluded Matters" are: (i) actions relating to the collection of assessments and other charges imposed by the Association (except that Disputes as to the validity of such assessments or other charges will be subject to resolution pursuant to Section 12.1); (ii) actions by the Association for injunctive or other equitable relief; (iii) actions for injunctive or declaratory relief seeking a determination as to the applicability, enforcement or interpretation of this Declaration; (iv) any action in which an indispensable party is not subject to the mediation and arbitration agreement contained in Section 12.1; (v) any action to enforce an arbitration award; and (vi) any action between an Owner and a Builder regarding any warranty or construction defect claim.

## 13. General Provisions

## 13.1 Amendment

- (a) By Declarant. Upon 30 days advance notice to Owners, the Declarant may, without a vote of the Owners or approval by the Board, unilaterally adopt, execute and record a corrective amendment or supplement to this Declaration or the other Governing Documents to correct a mathematical mistake, an inconsistency or a scrivener's error, or to clarify an ambiguity in this Declaration or the other Governing Documents with respect to an objectively verifiable fact. The Declarant may also, without a vote of the Owners or approval by the Board, unilaterally adopt, execute and record an amendment to this Declaration or the other Governing Documents in connection with the exercise of the Declarant's development rights, as contemplated in RCW 64.90.250.
- (i) by the consent of the Owners of two-thirds of all Lots together with (ii) the approval or ratification of a majority of the Board. The aforementioned consent of the Owners may be evidenced by a writing signed by the required number thereof or by the affirmative vote of the required number thereof at any regular or special meeting of the Association called and held in accordance with the Association's Bylaws.
- First Mortgagee Approval. In addition to any other provisions contained in this Declaration, the prior written approval of 51% of First Mortgagees who have requested from the Association notification of amendments will be required for any material amendment to this Declaration or the other Governing Documents of any of the following: (i) voting rights; (ii) assessment liens or the subordination thereof; (iii) reserves for maintenance, repair and replacement of Common Areas; (iv) insurance or fidelity bonds; (v) responsibility for maintenance and repair; (vi) the boundaries of any Lot owned by an Owner other than the Declarant, except minor lot line adjustments; (vii) reallocation of interests in the Common Areas or rights to their use; (viii) convertibility of Common Areas into Lots or of Lots into Common Areas; (ix) impositions of restrictions on the right of an Owner to convey the Owner's Lot; (x) a decision by the Association to establish self-management when professional management had been required previously by First Mortgagees; (xi) any action to terminate the legal status of the Timber Valley Estates development after substantial destruction or condemnation occurs; and (xii) any provisions that are for the express benefit of First Mortgagees. The approval of a First Mortgagee may be assumed when it fails to submit a response to any written proposal for an amendment without 60 days after it receives proper notice of the proposal, provided that the notice was delivered by certified or registered mail, return receipt requested.

- (d) Amendments to Comply with Lender Requirements. In addition to the foregoing, the Declarant and the Board have the power and authority, without the vote of the Association, to amend this Declaration and to enter into such contracts and agreements on behalf of the Association as are required in order to satisfy the guidelines of Institutional Mortgagees so as to allow for the purchase, guaranty or insurance, as the case may be, by such entities of First Mortgages encumbering Lots. Each Owner agrees that it will benefit the Association and the Members, as a class of potential mortgage borrowers and potential sellers of their Lots, if Institutional Mortgagees approve the Property as a qualifying project under their respective policies, rules and regulations as adopted from time to time.
- (e) No Prejudice of Rights. Notwithstanding anything to the contrary contained in this Declaration, no amendment to this Declaration will be effective if it would impair or prejudice the rights or priorities of the Declarant or the Association under this Declaration or any other of Governing Documents without specific written approval of the affected party (i.e., the Declarant or the Association).
- (f) <u>Copy to Declarant</u>. After the Development Period, a true copy of any amendment to this Declaration must be sent certified mail by the Association to Declarant within five days of its adoption.
- (g) <u>Supplements; Community Declarations</u>. Notwithstanding anything contained in this Declaration, Supplements and Community Declarations are not amendments. Supplements may be executed only by the Declarant. Community Declarations may be executed only by the Declarant.
- 13.2 <u>Consents</u>. Unless a different standard of approval or consent is expressly set forth in this Declaration, if a matter requires the approval or consent of the Declarant or the Association, the Declarant or the Association may grant or withhold such approval or consent in its sole discretion.
- 13.3 <u>Declaration Runs with Land</u>. The covenants, reservations, restrictions, and other provisions of this Declaration will run with and bind the Property and will inure to the benefit of the Declarant (until such time as the Declarant records a certificate in the land records of the County to the effect that the Declarant no longer intend to sell or construct any Lots), the Association, and all Owners, their respective legal representatives, heirs, successors and assigns.
- 13.4 <u>Dissolution of Association</u>. Following dissolution of the Association, each Lot will continue to be subject to the assessments specified in this Declaration and each Owner shall continue to be personally obligated to the Declarant or the successor or assigns of the Association as the case may be for such assessment to the extent that such assessments are required to enable the Declarant or any such successors or assigns acquiring any real property previously owned by the Association to properly maintain, operate and preserve it. The provisions of this <u>Section 13.4</u> will only apply with regard to the maintenance, operation and preservation of property that has been Common Areas and continues to be so used for the common use and enjoyment of Owners. Furthermore, following dissolution of the Association for whatever reason, any Owner may petition the Spokane County Superior Court for the appointment of a receiver to manage the affairs of the dissolved Association and the Common Areas in place and instead of the Association and to make such provisions as may be necessary for the continued management of the affairs of the dissolved Association, the Common Areas.
- 13.5 <u>Governing Law</u>. This Declaration will be construed in all respects under the laws of the State of Washington.

- 13.6 Interpretation. Wherever in this Declaration the context so requires, the singular number will include the plural, and the converse; and the use of any gender will be deemed to include all genders. In the event of any conflict, the following documents will control in the order stated: (i) this Declaration and Supplements/amendments, (ii) the Articles of Incorporation of the Association, (iii) the Bylaws of the Association and (iv) the Rules. Section captions in this Declaration do not have any independent meanings. The provisions of this Declaration must be liberally interpreted and construed to provide maximum flexibility consistent with the purposes set forth herein, including the Preamble. All exhibits attached to this Declaration are incorporated by reference.
- 13.7 <u>Notices</u>. Any notice or other communication required or permitted to be given or delivered pursuant to this Declaration will be deemed properly given and delivered upon (i) personal delivery, (ii) the mailing thereof by United States mail, postage prepaid, (iii) the mailing thereof by FedEx, UPS or other nationally-known carrier or (iv) by electronic transmission in accordance with Chapter 24.03 RCW, as it may be amended from time to time or supplanted.
- (a) <u>To the Declarant</u>. Notice to the Declarant as may be required or desired under this Declaration must be in writing and delivered or mailed to the Declarant at its principal place of business as shown by the records of the Secretary of the State of Washington, or at any other location designated by the Declarant. Upon request of an Owner, the Association shall furnish to such Owner the then-current address for the Declarant as reflected by the Association records.
- (b) <u>To Association</u>. Notice to the Association as may be required under this Declaration or the Association Bylaws must be in writing and delivered or mailed to the Association at its principal place of business as shown by the records of the Secretary of the State of Washington, or at any other location designated by the Association.
- (c) <u>To Owners and Builders</u>. Notice to any Owner or Builder of a violation of any of provision of this Declaration, or any other notice as may be required herein must be in writing and delivered or mailed to the Owner or Builder at the address shown on the tax rolls of the County, or to the address of the Owner or Builder, as shown on the deed recorded in the land records of the County, or to the address of the Owner or Builder as filed with the Secretary of the Association, or if an Owner or Builder is an Entity, to its principal place of business as shown by the records of the Secretary of State (of Washington or its state of organization).
- 13.8 <u>No Waiver</u>. No waiver of any breach of this Declaration will constitute a waiver of any other breach, whether of the same or any other covenant, condition or restriction.
- 13.9 <u>Severability</u>. If any covenant, condition, restriction or other provision of this Declaration is held to be invalid in whole or in part by any court of competent jurisdiction, then such provision will be deemed modified to the minimum extent necessary to make it valid and enforceable and the court's holding will in no way affect the validity of the remaining provisions of this Declaration, all of which shall remain in full force and effect.
- 13.10 <u>Transfer of Certain Utilities</u>. The Declarant and the Association may convey its interest in any utility system (including, without limitation, the Communication System, Sewer System and the Water System, if any) to a private entity or public body for ownership and maintenance, together with any necessary easements relating thereto, and each Lot will become burdened thereby.

# ASSOCIATION BYLAWS

See attached.

### BYLAWS

OF

### TIMBER VALLEY ESTATES HOMEOWNERS ASSOCIATION

### a Washington nonprofit corporation

The following are Bylaws of Timber Valley Estates Homeowners Association (the "Association"), a corporation organized under the Washington Nonprofit Corporation Act (Ch. 24.03 RCW), (the "Nonprofit Corporation Act"). These Bylaws provide for operation of Timber Valley Estates, a common interest community (the "CIC") located in Spokane County, Washington. These Bylaws and the CIC are governed by the Washington Uniform Common Interest Community Act (Ch 64.90 RCW), ("WUCIOA"). These Bylaws apply to the entire CIC, each Lot therein and all Common Areas. Each Owner automatically, by virtue of such ownership, becomes a Member of the Association. All present and future Owners, First Mortgagees, Institutional Mortgagees and other encumbrancers, lessees, tenants, licensees, and occupants of a Lot or Residence, and their guests and employees, and any other person who may use the facilities of the CIC are subject to these Bylaws, the Declaration of Covenants, Conditions, Restrictions and Easements for Timber Valley Estates, as it may from time to time be amended (the "Declaration") and the Rules pertaining to use and operation of the CIC.

Words and phrases that are defined in the Declaration shall have the same meaning in these Bylaws.

### ARTICLE 1. MEMBERSHIP; VOTING; REGISTER.

- Section 1.1 Membership. Owners of Lots in the CIC shall constitute the Members of the Association. Owners of a Lot as joint tenants, tenants in common, community property, or other ownership involving more than one Owner, shall be joint Members of the Association, but the sum total of their vote shall not exceed the voting power allocated to the Lot owned.
- Section 1.2 <u>Number of Votes</u>. The total voting power of the Owners equals 100 and the total number of votes available to the Owner or Owners of each Lot shall be equal to the Allocated Interest for voting purposes for each Lot owned.
- Section 1.3 <u>Voting</u>. The Owner of each Lot shall vote for the Lot; provided that the Voting Representative or other authorized officer of the Community Association for any Community created within the CIC shall cast all votes attributable to Lots owned by Members in that Community.
- Section 1.4 <u>Voting by Multiple Owners</u>. If only one of the multiple Owners of a Lot is present at a meeting of the Association, the Owner who is present is entitled to cast all the votes allocated to that Lot. If more than one of the multiple Owners are present, the votes allocated to that Lot may be cast only in accordance with the agreement of a majority in interest of the multiple Owners. There is majority agreement if any one of the multiple Owners casts the votes allocated to that Lot without protest being made promptly to the person presiding over the meeting by any of the other Owners of the Lot.
- Section 1.5 <u>Voting Representative Owners</u>. An Owner may, by written notice to the Board, designate a voting representative for the Lot. The voting representative need not be an Owner. The designation may be revoked at any time by written notice to the Board from a person having an ownership interest in a Lot, or by actual notice to the Board of the death or judicially declared incompetence of any

person with an ownership interest in the Lot, except in cases in which the person designated is a First Mortgagee of the Lot.

- Section 1.6 <u>Voting Representative Communities</u>. Each Community shall elect a Voting Representative. Except as provided in these Bylaws or the Declaration, the Voting Representative will be responsible for casting all votes attributable to Lots owned by Members in that Community, with respect to matters put to a vote of the Members. Members in a Community may not cast individual votes separate from the vote cast by the Voting Representative. Until a Voting Representative is appointed for a Community, all Owners within that Community will be entitled to cast the votes attributable to their Lots on Association matters submitted to a Member vote.
- Section 1.7 <u>Voting by Proxy; Pledged Votes to Mortgagee; Assignment to Tenant.</u> Votes allocated to a Lot may be cast pursuant to a proxy duly executed by an Owner. If a Lot is owned by more than one person, each Owner of a Lot may vote or register protest to the casting of votes by the other Owners of the Lot through a duly executed proxy. An Owner may not revoke a proxy given pursuant to this Section except by actual notice of revocation to the person presiding over a meeting of the Association. A proxy is void if it is not dated or purports to be revocable without notice. Unless stated otherwise in the proxy, a proxy terminates 11 months after its date of issuance. An Owner may, but shall not be obligated to, pledge voting rights on all issues or on specific issues to a First Mortgagee. If the Association has been notified of any such pledge to a First Mortgagee, only the vote of the First Mortgagee will be recognized on the issues that are subject to the pledge. An Owner may also assign voting rights on all issues or on specific issues to a tenant of the Owner's Lot. If the Association has been notified of any such assignment to a tenant, only the vote of the tenant will be recognized on the issues that are subject to the assignment. Notice of the assignment to the tenant may be in a recorded memorandum of lease or other instrument delivered to the Association pursuant to the Declaration.
- Section 1.8 <u>Register of Members</u>. The Board shall cause a register to be kept containing the names and addresses of all Members. Persons who purchase an interest in a Lot shall promptly inform the Board of their interest. Persons who claim to be members of the Association shall, upon request, furnish the Board with copies of any documents under which they assert ownership of a Lot or any interest therein, and any mortgages thereon.

### ARTICLE 2. MEETINGS OF MEMBERS.

- Section 2.1 <u>Place</u>. Meetings of the Members of the Association shall be held at such suitable place as may be convenient to the membership and designated from time to time by the Board. Meetings of the Members of the Association may be conducted by telephonic, video, or other conferencing process, if the meeting notice states the conferencing process to be used and provides information explaining how Owners may participate in the conference directly or by meeting at a central location or conference connection.
- Section 2.2 <u>Annual Meeting</u>. The annual meeting of the Members of the Association shall be held in the first quarter of each fiscal year on a date fixed by the Board, which date shall not be less than 14 nor more than 50 days after notice of the meeting is given to the Members.
- Section 2.3 Special Meetings. A special meeting of the Members of the Association may be called by the president, by resolution of the Board or upon the written request of any Owners having at least 20% of the votes in the association, not less than 14 nor more than 50 days in advance of the meeting. No business shall be transacted at a special meeting except as stated in the notice given therefor unless consented to by all of the Owners.

- Notice of Meetings. It shall be the duty of the secretary to give notice of each annual meeting, special meeting and Board meeting. If the Association does not provide notice to Owners of a special meeting within 30 days after the requisite percentage of Owners request the secretary to do so, the requesting Members may directly provide notice to all Owners of the meeting. Such notice shall be delivered personally, electronically transmitted (including email), or by first class mail to the address of each Lot or to any other mailing address designated in writing by the Member, to each Member of the Association and to each First Mortgagee or Institutional Mortgagee, if required by the Declaration. Prior to delivering notice in an electronic transmission, the person receiving notice must consent in writing to receive electronically transmitted notices and the electronically transmitted notice must include the materials that would be otherwise included in a notice that is personally delivered or mailed. If notice is electronically transmitted, it will be deemed to have been received when it is sent to the email address given by such person to the secretary. The notice of any meeting shall state the time and place of the meeting and the items on the agenda to be voted on by the Members, including the text of any proposed amendment to the Declaration or Bylaws, changes in the previously approved budget that result in a change in Common Expense obligations, and any proposal to remove a director or officer. At a special meeting of the Members, only matters described in the meeting notice may be considered. Before any meeting of the Association, any Member may, in writing, waive notice of such meeting. Attendance by a Member at a meeting of the Association shall be a waiver by him or her of timely and adequate notice unless he or she expressly challenges the notice when the meeting begins.
- Section 2.5 Quorum. A quorum for the transaction of business is present throughout any meeting of the Members if Owners entitled to cast at least 20% of the votes in the Association: (a) are present in person or by proxy at the beginning of the meeting; (b) have voted by absentee ballot; or (c) are present by any combination of (a) and (b) of this Section 2.5. Members shall have an obligation to make a good faith effort to attend duly called meetings of the Association.
- Section 2.6 <u>Adjournment of Meetings</u>. If any meeting of Owners cannot be organized because a quorum has not attended, the Owners present, in person or by proxy, may adjourn the meeting to a time not less than 48 hours from the time the original meeting was called.
- Section 2.7 <u>Majority Vote</u>. Except as otherwise provided by WUCIOA, the Declaration, or these Bylaws, passage of any matter submitted to vote at a meeting where a quorum is present, shall require the affirmative vote of a majority of the votes present.
- Section 2.8 <u>Meetings Open to Members</u>. Regular and special meetings of the Members will be open to all Members of the Association. At each meeting the Board must provide a reasonable opportunity for Members to comment regarding matters affecting the CIC and the Association. Notwithstanding the foregoing, the Board may expel or prohibit attendance by any person who, after warning by any director disrupts the meeting.
- Section 2.9 <u>Action by Members Without a Meeting</u>. Any action required or permitted to be taken at a meeting of the Members may be taken without a meeting if a written consent setting forth the action to be taken is signed by every Member. Any such written consent shall be inserted in the minute book as if it were the minutes of a meeting of the Association.

### ARTICLE 3. BOARD OF DIRECTORS.

Section 3.1 Number and Term. The affairs of the Association shall be governed by a Board of not less than three nor more than seven directors, the specific number to be set by resolution of the Board. During the Development Period, the Declarant will have the right to appoint and remove the members of the Board and the officers of the Association; provided, that:

- a) Not later than 60 days after conveyance of 25% of the Lots that may be created to Owners other than the Declarant, at least one member and not less than 25% of the members of the Board must be elected by the Members other than the Declarant; and
- b) Not later than 60 days after conveyance of 50% of the Lots that may be created to Owners other than the Declarant, not less than one-third of the members of the Board must be elected by Members other than the Declarant.

Within 30 days after the termination of the Development Period, the Board must schedule a transition meeting, as contemplated in RCW 64.90.415(4) and elect members to the Board. Successor directors will be elected each year at the annual meeting of the Members. The addition of the other such real property, if any, that is annexed to the Property shall not increase the number of directors or method of appointment of directors.

- Section 3.2 <u>Powers and Duties</u>. Subject to such approvals by Owners as may be required by the Declaration and the dispute resolution provisions in Section 12 of the Declaration, the Board shall have the powers and duties provided for the administering authority of the CIC in the WUCIOA and in the Declaration, and all other power necessary for the administration of the affairs of the Association, and may do all such acts and things as are not prohibited by statute or by the Declaration required to be done in another manner.
- Section 3.3 <u>Vacancies</u>. Any vacancy on the Board caused by any reason other than the removal of a director will be filled by vote of the majority of the remaining directors, or, in the case of a director appointed by the Declarant, by a new appointment by the Declarant.
- Section 3.4 Removal of Directors. The Members, by a two-thirds vote of those present and entitled to vote at any meeting of the membership at which a quorum is present, may remove any director, with or without cause, other than a director if any, appointed by the Declarant. The Declarant may not remove any director elected by the Members. At any time, the Declarant may remove any director appointed by the Declarant, with or without cause.
- Section 3.5 <u>Compensation</u>. No compensation shall be paid to directors for their services as directors.
- Section 3.6 Regular Meetings. Regular meetings of the Board may be held at such time and place as shall be determined from time to time by a majority of the directors, but at least four such meetings shall be held during each fiscal year. Notice of regular meetings of the Board shall be given to each Owner and director not less than 14 days in advance of the meeting. The minimum time to provide notice may be reduced or waived for a meeting called to deal with an emergency. Notice may be given to each Owner and director by any means described in Section 2.4 of these Bylaws. During the Development Period, the Board must meet at least four times a year. At least one of those meetings must be held at the Property or at a place convenient to the directors. After the transition meeting contemplated in RCW 64.90.415(4), all meetings of the Board must be at the Property or at a place convenient to the directors unless the Members amend these Bylaws to vary the location of those meetings. If any materials are distributed to the Board before the meeting, the Board must make copies of those materials reasonably available to the Members, except that the Board need not make available copies of unapproved minutes or materials that are to be considered in executive session.

- Section 3.7 <u>Special Meetings</u>. Special meetings of the Board may be held at such time and place as shall be determined by any of the directors. Notice of special meetings of the Board shall be given to each Owner and director not less than 14 days in advance of the meeting. The minimum time to provide notice may be reduced or waived for a meeting called to deal with an emergency. Notice may be given to each Owner and director by any means described in Section 2.4 of these Bylaws.
- Section 3.8 Adjournment; Executive Sessions. The Board may, with the approval of a majority of a quorum of the directors, adjourn a meeting and reconvene in executive session. An executive session may be held only to: (a) consult with the Association's attorney concerning legal matters; (b) discuss existing or potential litigation or mediation, arbitration, or administrative proceedings; (c) discuss labor or personnel matters; (d) discuss contracts, leases, and other commercial transactions to purchase or provide goods or services currently being negotiated, including the review of bids or proposals, if premature general knowledge of those matters would place the Association at a disadvantage; or (e) Prevent public knowledge of the matter to be discussed if the Board or any committee determines that public knowledge would violate the privacy of any person. A final vote or action may not be taken during an executive session. The nature of any and all business to be considered in executive session will first be announced in open session.
- Section 3.9 <u>Waiver of Notice</u>. Before any meeting of the Board, any director may, in writing, waive notice of such meeting. Attendance by a director at any meeting of the Board shall be a waiver by him or her of timely and adequate notice unless he or she expressly challenges the notice when the meeting begins.
- Section 3.10 Quorum. At all meetings of the Board, a majority of the directors by number must be present in order to constitute a quorum for the transaction of business. The acts of the majority of the directors present at a meeting at which a quorum is present shall be the acts of the Board. Fewer than all Board members may participate in a regular or special meeting by or conduct a meeting through the use of any means of communication by which all Board members participating can hear each other during the meeting, such as, by telephonic, video, or other conferencing process, provided that:
  - The meeting notice states the conferencing process to be used and provides information explaining how Owners may participate in the conference directly or by meeting at a central location or conference connection; and
  - b) The process provides all Owners the opportunity to hear or perceive the discussion and to comment as provided in Section 3.11 of these Bylaws.

A Board member participating in a meeting by these means is deemed to be present in person at the meeting. If there is less than a quorum present at any meeting of the Board, the majority of those present may adjourn the meeting from time to time.

- Section 3.11 <u>Board Meetings Open to Members</u>. Regular and special meetings of the Board and committees authorized to act for the Board will be open to all Members of the Association except during executive sessions. At each meeting the Board must provide a reasonable opportunity for Members to comment regarding matters affecting the CIC and the Association. Notwithstanding the foregoing, the Board may expel or prohibit attendance by any person who, after warning by any director disrupts the meeting.
- Section 3.12 <u>Action by Directors Without a Meeting</u>. Any action required or permitted to be taken at a meeting of the Board may be taken without a meeting if a written consent setting forth the action to be taken is signed by every director. Any such written consent shall be inserted in the minute

book as if it were the minutes of a meeting of the Board. After the transition meeting, the board may act by unanimous consent only to undertake ministerial actions, actions subject to ratification by the Members, or to implement actions previously taken at a meeting of the board.

### ARTICLE 4. OFFICERS.

- Section 4.1 <u>Designation</u>. The principal officers of the Association shall be a president, a vice president, a secretary, and a treasurer, all of whom shall be elected by the Board. The Board may appoint such other officers as in their judgment may be necessary or desirable. Two or more offices may be held by the same person, except that a person may not hold the offices of president and secretary simultaneously.
- Section 4.2 <u>Election of Officers</u>. The officers of the Association shall be elected annually by the Board at the first Board meeting held after the annual meeting of the Association. They shall hold office at the pleasure of the Board.
- Section 4.3 <u>Removal of Officers</u>. At any regular meeting of the Board or at any special meeting of the Board called for such purpose, upon an affirmative vote of a majority of the members of the Board, any officer may be removed, either with or without cause. A successor to the removed officer may be elected at any such meeting.
- Section 4.4 <u>President.</u> The president shall be the chief executive officer of the Association. He or she shall preside at all meetings of the Association and of the Board and shall have all powers and duties usually vested in the office of the President.
- Section 4.5 <u>Vice President</u>. The vice president shall perform the duties of the president when the president is absent or unable to act, and shall perform such other duties as may be prescribed by the Board.
- Section 4.6 <u>Secretary</u>. The secretary shall keep the minutes of all meetings of the Board and of the Association and shall have custody of the business records of the Board and the Association, other than financial records kept by the treasurer. He or she shall also perform such other duties as may be prescribed by the Board.
- Section 4.7 <u>Treasurer</u>. The treasurer shall have responsibility for Association funds and securities and shall be responsible for keeping full and accurate accounts of all receipts and disbursements in books belonging to the Association.

### ARTICLE 5. HANDLING OF FUNDS.

Section 5.1 <u>Preparation of Budget</u>. The Association shall establish the necessary funds or accounts to provide properly for the operation and maintenance of the CIC. Overall superintendence of these funds shall be the responsibility of the treasurer of the Association. Not less than 30 days before the end of the fiscal year the Board shall prepare a budget for the Association for the coming year. In preparing its budget the Board shall estimate the Common Expenses of the Association to be paid during the year. The budget will include: (a) the projected income to the Association by category; (b) the projected Assessments that are subject to being budgeted; (c) the amount of the Allocated Interest per Lot and the date the assessments are due; (d) the current amount of Common Expenses budgeted for contribution to the reserve account; and (e) the current deficiency or surplus in reserve funding expressed on a per Lot basis.

- Section 5.2 <u>Ratification of Budget</u>. Within 30 days after adoption of any proposed budget for the CIC, the Board shall provide a copy of the budget to all the Members and shall set a date for a meeting of the Members to consider ratification of the budget not less than 14 nor more than 50 days after mailing of the budget. Unless at that meeting the Members to which a majority of the votes in the Association are allocated reject the budget, the budget shall be ratified, whether or not a quorum is present. In the event the proposed budget is rejected or the required notice is not given, the periodic budget last ratified by the Members shall be continued until such time as the Members ratify a subsequent budget proposed by the Board.
- Section 5.3 <u>Supplemental Budget</u>. If during the year the budget proves to be inadequate for any reason, including nonpayment of any Member's Allocated Interest, the Board may prepare a supplemental budget for the remainder of the year. Any reserve study is supplemental to the Association's operating and maintenance budget. A supplemental budget is subject to ratification by the Members pursuant to Section 5.2 of these Bylaws.
- Section 5.4 Operating Fund. There shall be established one or more checking accounts in a commercial bank to be known as the "Operating Fund." The Operating Fund will be used for the normal operation of the Association and will receive all regular assessments for Common Expenses and other monies received by the Association. Checks shall be issued from this account for all management and operational expenditures necessary for the CIC and maintenance expenses of a routine or minor nature that do not require resort to the Reserve Fund. Owners may be directed to make payments for Common Expenses to a third party as agent for the Association or to the Association, as the Board may determine.
- Section 5.5 Reserve Funds; Reserve Study. The Association shall maintain a reserve fund which shall be known as the "Reserve Fund" to pay for unforeseen or unbudgeted costs, such as, for periodic repair and replacement of the Common Areas. The reserve fund must be kept in an income-earning account maintained under the direct control of the Board, and the Board is responsible for administering the funds.
- 5.5.1 Prior to establishing a reserve fund, an initial reserve study must be prepared by (a) the Board or (b) if required by law, a reserve study professional and based upon either a reserve study professional's visual site inspection of completed improvements or a review of plans and specifications of or for unbuilt improvements, or both when construction of some but not all of the improvements is complete. If an exemption does not exist under RCW 64.90.545, the contents of the reserve study must comply with RCW 64.90.550, et seq.
- 5.5.2 An updated reserve study must be prepared annually. If required by law, an updated reserve study must be prepared at least every third year by a reserve study professional and based upon a visual site inspection conducted by the reserve study professional.
- 5.5.3 The Board may withdraw funds from the Reserve Fund, provided that (a) any such withdrawal must be recorded in the minute books of the Association, (b) the Board must give notice of any such withdrawal to each Owner and (c) the Board must adopt a repayment schedule not to exceed 24 months unless the Board determines that repayment within 24 months would impose an unreasonable burden on the Owners. The Board must provide to Owners along with the annual budget (x) notice of any such withdrawal, (y) a statement of the current deficiency in reserve funding expressed on a per Lot basis and (z) the repayment plan.

Section 5.6 <u>Combination and Deposit or Investment of Funds</u>. All funds of the Association shall be kept in accounts or deposits that are insured by agencies of the United States. The funds of the Association shall not be commingled with the funds of any other association or with the funds of any director of the Association. The Reserve Fund may be combined in one or more savings accounts, certificates of deposit, or other accounts or deposits. Withdrawals from the Reserve Fund require the signature of at least two persons who are officers or directors of the Association.

### ARTICLE 6. KEEPING RECORDS AND REPORTS.

The Board shall cause to be kept complete, detailed, and accurate books and records of the receipts and expenditures of the Association, in a form that complies with generally accepted accounting practices. The Association must retain the records enumerated in RCW 64.90.495 and prepare, or cause to be prepared, at least annually, a balance sheet and income statement of the Association. The books and records, authorizations for payment of expenditures, and all contracts, documents, papers, and other records of the Association shall be available for examination by the Owners, First Mortgagees, Institutional Mortgagees and the agents or attorneys of either of them, during normal business hours and at any other reasonable time or times.

### ARTICLE 7. AMENDMENTS.

The procedure and necessary consents required for adoption of amendments to the Bylaws are set forth in the Declaration.

### ARTICLE 8. USE OF NEW TECHNOLOGY.

- Section 8.1 Right to Use New Technology. Due to the ongoing development of new technologies and corresponding changes in business practices, to the extent permitted by law now or in the future: (a) any notice required to be sent or received; (b) any signature, vote, consent or approval required to be obtained; or (c) any payment required to be made, under the Governing Documents may be accomplished using the most advanced technology available at that time if such use is a generally accepted business practice. This Article 8 shall govern the use of technology in implementing the provisions of the Governing Documents dealing with notices, payments, signatures, votes, consents or approvals.
- Section 8.2 <u>Electronic Means</u>. To the extent permitted by law and by Section 2.4 of these Bylaws, the Association, directors and Owners may perform any obligation or exercise any right by use of any technological means providing sufficient security, reliability, identification and verifiability. Acceptable technological means shall include without limitation electronic communication over the internet, the community or other network, whether by direct connection, intranet, telecopier or other electronic transmission.
- Section 8.3 <u>Signature Requirements</u>. A digital signature meeting the requirements of applicable law shall satisfy any requirement for a signature under the Governing Documents.
- Section 8.4 <u>Electronic Funds Transfer.</u> Payment of all sums to and from the Association and the Owners may be made by electronic transfer of funds creating a record evidencing the transaction for the period such record would be required to be available in non-electronic form.
- Section 8.5 <u>Voting Rights</u>. To the extent permitted by law, voting and approval of any matter under the Governing Documents may be accomplished by electronic means provided that a record

is created as evidence thereof and maintained as long as such record would be required to be maintained in non-electronic form.

Section 8.6 Non-technology Alternatives. If any Member does not have the capability or desire to conduct business using electronic or other technological means, the Association shall make reasonable accommodation, at its expense, for such person to conduct business with the Association without use of such electronic or other means until such means has become generally (if not universally) accepted in similar communities in the area.

#### **DESIGN GUIDELINES**

#### DESIGN GUIDELINES FOR TIMBER VALLEY ESTATES HOMEOWNERS ASSOCIATION

The following DESIGN GUIDELINES FOR TIMBER VALLEY ESTATES HOMEOWNERS ASSOCIATION (these "<u>Guidelines</u>") are established under authority granted to the Timber Valley Estates Homeowners Association (the "<u>Association</u>") through the *Declaration of Covenants, Conditions, Restrictions and Easements for Timber Valley Estates* (the "<u>Declaration</u>") for the timely review and approval of designs for new construction and remodeling.

Timber Valley Estates, a common interest community (the "<u>CIC</u>") includes or will include up to 100 Lots in the northern portion of Spokane County, Washington, outside the City of Deer Park, intended for residential development. The purpose of these Guidelines is to (i) identify design and development criteria that will promote and maintain a high quality of community appearance consistent with the standards envisioned for the CIC, (ii) encourage appreciating economic values of Lots and Residences within the CIC, and (iii) specify design submission requirements and the design review process. These Guidelines will evolve along with the needs and requirements of the CIC. The Association reserves the right to amend, change or revise any of these Guidelines at any time. Changes and updates will be published as required. Words and phrases that are not defined in Article 6 of these Guidelines shall have the same meanings ascribed to them in the Declaration.

Elements of these Guidelines that are intended to be regulatory are characterized by words such as "shall," or "must" and may include an enumerated list of rules. Others are suggestions or recommendations, differentiated within the provisions of these Guidelines by the use of terms such as "encouraged," "should," or "may." Additionally, statements of design principles, usually accompanied by bullet lists, are intended to add clarity and context to the regulations, suggestions and recommendations that follow. These statements of design principles are not intended to be regulatory.

## ARTICLE 1. APPLICATION AND PURPOSE

- 1.1 <u>Intent</u>. The intent of these Guidelines is to articulate essential design characteristics and approaches that will achieve the overall standard of community appearance envisioned for the CIC. These Guidelines establish basic standards and suggest design treatments that are equally aspirational, inspirational and regulatory, encouraging project designers and Owners to be creative in proposing high-quality design solutions for development opportunities. Lots should be developed in a manner that minimizes site impacts. Improvements should be designed to blend with, rather than dominate, the natural site. The CIC will be developed so as to preserve open spaces and existing vegetation within the community.
- 1.2 <u>Application</u>. These Guidelines are intended for use by Builders, Owners, architects, landscape architects and civil engineers under the direction of the and the ARC. These Guidelines apply to all development and construction within the CIC including individual Owner Improvements and Builder-provided Improvements, site planning, architectural design, landscape design, signage and site furnishings for all Lots. The ARC will refer to these Guidelines to determine the relative conformance of proposals to the overall design objectives and criteria.
- 1.3 <u>Relationship to other Rules</u>. These Guidelines are a supplement to all applicable government codes and regulations, as may be modified by the Development Agreement (the "<u>Law</u>"). The Guidelines are also supported by the Development Agreement and the Declaration. These Guidelines do not supersede or modify any existing Law. Spokane County through its zoning ordinances may have specific design or permit requirements not addressed in these Guidelines. Any requests for variances to

Laws shall be submitted to the appropriate government agency according to established procedures following review and approval by the ARC, and written consent from the applicable Builder. In the event of conflict or discrepancy, or for subjects not addressed herein or as part of the Development Agreement, the most restrictive standards shall apply.

### ARTICLE 2. SITE DEVELOPMENT

- 2.1 <u>General Site Planning Principals</u>. The location of Residences, driveways, outbuildings and fences should be integrated with natural landforms and vegetation and not compete with them. The following site planning guidelines apply to site development in order to inspire a high-quality living environment that responds to the site's natural features. The development design and site plans should:
  - Encourage a strong sense of neighborhood identity, visual diversity, and openness.
  - Locate Improvements, driveway turnaround areas, and site disturbance associated with construction of the Residence in areas which are sensitive and preserve the site's natural topography and terrain.
  - Establish setbacks that provide separation and privacy for residents.
  - Preserve the site's unique natural features and functions, minimizing the potential for flooding and erosion.
- 2.2 <u>Site Orientation and Lot Coverage</u>. The location and design of Improvements are key in establishing the overall character and function of the CIC. Important site development considerations include the placement of the Residence on the Lot and the percentage of the Lot covered by the Residence, outbuildings, driveways and landscaping. Lots are divided into two zones: a Buffer Zone and a Development Zone (as described below). The property lines and applicable setback lines are used to define the boundaries of the Buffer Zone and Development Zone on each Lot.
  - 2.2.1 <u>The Buffer Zone</u>. The Buffer Zone is on the perimeter of each Lot and adjoins streets, other rights-of-way, and other adjacent Lots. Design criteria for this area are intended to (i) provide separation and privacy for residents, (ii) safeguard existing open space on the Lots and (iii) ensure that suitable transitions occur between the neighboring Lots and roadways. To preserve the Buffer Zone, the following rules shall apply:
    - (1) A Residence and all other Improvements (except drain fields) shall be erected at least 100 feet from of any public or private road and at least 30 feet from any contiguous Lot.
    - (2) A drain field shall located at least 30 feet from any contiguous Lot, but may otherwise be located anywhere on a Lot (including within 100 feet of a public or private road), subject to County requirements. The construction of a drain field on a Lot may limit the areas in which a drain field subsequently may be constructed on a contiguous Lot.
    - (3) ARC approval is required for an Owner or Builder to erect an Improvement, such as a shed or outbuilding, within the Buffer Zone. In no circumstances shall the ARC permit an Owner or Builder to erect a Residence within the Buffer Zone.

- 2.3 <u>The Development Zone</u>. The Development Zone is within the interior of each Lot and is entirely encircled by the Buffer Zone. Design criteria for the Development Zone is intended to be flexible, so that the ARC can respond to the individual merits of each proposal by an Owner and the unique characteristics of each Lot. To preserve the Development Zone, the following rules shall apply:
  - (1) Lot coverage will be considered on an individual basis by the ARC when a site plan is submitted for approval. As a recommended guideline, no more than 20% of any Lot may be covered by buildings and paved areas. Site plans will be reviewed to assure that there is adequate space for access, parking, landscaping, and utility easements, as well as for the protection of the aesthetic character of the CIC.
  - (2) The floor area ratio of each Lot, as specified in its deed, shall govern the maximum amount of building floor area permitted, provided that the building floor area of a Residence must be at least 1,400 square feet.
- 2.4 <u>Private Driveways</u>. For the purpose of these Guidelines, "<u>Private Driveway</u>" means an access road that provides vehicular access to structures on no more than three Lots. Private Driveways should generally follow the natural contours of the site, and be sensitive to natural site features, including existing vegetation, drainage ways and rock outcrops, in their layout and design. Private Driveways should have an all-weather surface such as asphalt or gravel. The Spokane Division of Engineering and Roads may require an approach permit for construction of a Private Driveway that connects to any county public road. Private Driveways constructed prior to obtaining building permits may require a grading permit. The following rules shall apply to all Private Driveways built in the CIC:
  - (1) Private Driveways must maintain at least a 12-foot width and shall not exceed a 15-foot width at their intersection with a street.
  - (2) A turnaround is required for Private Driveways over 150 feet in length. The turnaround must be located within 150 feet of the Residence.
  - (3) No curve radius may be less than 100 feet measured from the road center line unless approved by the local fire district and the Spokane Department of Building and Planning.
  - (4) Corrugated metal pipes or an approved alternate must be used for driveway drainage. Driveway cross pipes at private road approaches to the emergency vehicle access roads shall be a minimum of 12 inches in diameter. At public road approaches to emergency vehicle access roads, a minimum 12 inch by 24 foot galvanized 16-gauge culvert will be required.
- 2.5 Environmental Protection. All construction and development of the CIC must comply with the Residential Provisions of the Washington State Energy Code (Ch. 51-11R WAC) as it may be amended from time to time. Builders and Owners are encouraged to use plant materials, irrigation systems, and maintenance practices that conserve water and manage erosion. It is of great importance to provide temporary erosion control during the construction period. Where applicable, drought tolerant turf and mountain grasses are encouraged to provide a natural look that requires less water and maintenance. A Builder shall confine work to the areas specified in drawings and specifications approved by the ARC and is encouraged to protect all trees, shrubbery and foliage unless removal is authorized in the plans approved by the ARC. The following rules regarding environmental protection shall apply to the CIC:
  - (1) Erosion shall be controlled in all circumstances. Temporary barriers shall be used to prevent damage to the site and siltation of adjoining areas.

- (2) If solar panels are used, they shall be integrated into roof designs and positioned flush with roof slopes.
- (3) If wind turbines are used, they must comply with any height restrictions provided by applicable Law. No industrial sized wind turbines are permitted in the CIC.
- (4) If the Owner or Builder uncover any structure, artifact, human or animal remains or other thing of probable historical or archaeological value during any excavation at the site, the owner or contractor shall immediately cease work in the vicinity of such discovery and notify the ARC.
- (5) No blasting shall be permitted without the prior written approval of the ARC. All approved blasting shall comply with the Law, including those requirements of the Spokane Metro Area Fire Marshals and the Spokane Field Office for the Bureau of Alcohol, Tobacco, Firearms and Explosives. Special emphasis shall be placed on avoiding damage to trees, adjacent buildings and utility systems. An Owner or Builder shall obtain any required permits for blasting prior to performing the work.
- (6) Outdoor burning is regulated by Spokane Metro Area Fire Marshals. Burning is not permitted without the prior consent of Spokane Metro Area Fire Marshals and the ARC, as appropriate.
- 2.6 <u>Utilities</u>. The Association shall install electricity and telecommunication utilities to serve the CIC, and the cost for use of such systems will be allocated pursuant to the Declaration. The Association will not provide a Sewage System nor a Water System to any Lot within CIC. Owners may install a Sewage System and Water System on their Lot, provided that installation and maintenance of the Systems comply with applicable Law. All utility lines must be placed underground or otherwise out of view, except for drainage ditches. All transformers, meters and valves are to be installed in underground vaults or otherwise screened. Mechanical, electrical, optical, electronic and telecommunications equipment attached to or mounted on a building must be grouped together in an orderly manner.

## ARTICLE 3. IMPROVEMENTS

- 3.1 <u>General Design Principals</u>. The general design principles and features proposed to achieve the desired architectural character for Improvements located within the CIC include:
  - Modern architectural styles which promote contextual appropriateness with the Lot and neighborhood compatibility.
  - Protect and integrate existing features, such as trees or rock outcroppings into the design of Improvements and landscaping.
  - Articulated building forms, including a combination of single and multiple-story building forms and elements, which provide transitions to adjacent houses, as well as a comfortable scale in relationship to human proportions.
  - Strong and compatible design elements and details, which help articulate building forms and add depth, shadows, visual interest, and relief to individual houses. Such elements include covered porches and entryways, balconies, roof overhangs, expressive materials, and the articulation of window and door openings.

• Natural building materials with neutral colors and textures that promote a desirable "natural" look.

#### 3.2 Residence.

- 3.2.1 <u>Location</u>. Only one Residence (other than accessory dwelling units) may be erected on each Lot. The Residence must be constructed within the Development Zone of the Lot. Residences must be stick-framed.
- 3.2.2 <u>Height Restrictions</u>. The maximum height for a Residence is 35 feet. Pursuant to the Spokane County Zoning Code, building height is measured from the average finished grade to highest point of the roof. The average finished grade is determined by first delineating the smallest rectangle which can enclose the building and then averaging the elevations taken at the midpoint of each side of the rectangle, provided that the measured elevations do not include berms or backfills extending less than 10 feet horizontally from the building.
- 3.2.3 <u>Roof Standards</u>. Proper selection of roof materials and colors is an important element in distinguishing the recommended styles and should complement the color scheme of the house. Any material used for a roof shall be 30-year minimum grade. Roof material may be metal (standing seam) or a similar material as approved by the ARC. Roofing shall not be reflective or light in color unless approved by the ARC.
- 3.2.4 Style and Color. A Residence should have the appearance of a modern architecture design with modern structural systems and modern construction techniques. A Residence shall not be or resemble a trailer home or modular home. A wide palette of materials will be permitted in the CIC, but the building surface materials should be chosen for durability and permanence, as well as harmony with the natural environment. Preferred building materials include, but are not limited to, brick, stucco, stone, architectural split-face block, granite and stone foundation veneer. Landscape elements such as rock accents shall be incorporated on the exterior design of every Residence. Exterior building colors shall be compatible within individual sites. Enriched, earth-tone colors are encouraged, while bright and pastel colors are not allowed. Accent colors should be used with discretion. Trim colors should accentuate roof forms, windows, and door openings.
- 3.3 <u>Garages</u>. All garages must be constructed within the Development Zone. The minimum capacity for a garage is two-car front-loaded. Detached garages are permitted. All garage doors shall be sectional roll-up types only and garage door styles shall be consistent with the style of the home, using a combination of single and double doors. Oversize garage doors (for RVs, boats, etc.) shall be designed as a single door with separate roof form and offset from the main garage elevation, and are specifically subject to ARC review and approval.
- 3.4 <u>Accessory Structures</u>. All accessory structures must be constructed within the Development Zone. The size and design of accessory structures should make them unobtrusive and generally consistent with the character of the Residence. Attached or detached accessory dwelling units are permitted, provided that they must be stick-framed and the Owner has obtained the necessary permits from Spokane County pursuant to the Law. Notwithstanding the foregoing, no commercial size barn or any size feedlots is permitted to be constructed or installed in the CIC.
- 3.5 <u>Fences</u>. Fences, walls, and barriers may be used for privacy and screening purposes, except that (i) non-coated chain-link fencing is prohibited, and (ii) perimeter wire fencing is prohibited, but electrified wire fencing for non-commercial livestock areas is permissible.

- 3.6 <u>Temporary Facilities</u>. No temporary buildings or other improvements of a temporary nature, including modular homes, incomplete buildings, tents or shacks, will be permitted on a Lot, except with the prior written approval of the ARC.
- 3.7 <u>Other Improvements</u>. Improvements such as sport courts, courtyards and water features are permitted, provided that any such Improvement is located within the Development Zone.
- 3.8 <u>Mailboxes</u>. All mailboxes will be provided by the Association and no mailboxes shall be constructed on any Lot by an Owner or Builder.
- 3.9 <u>Screening</u>. Owners are encouraged to screen refuse bins and equipment, such as tractors or ATVs.
- 3.10 <u>Signs</u>. Signage restrictions are governed by the Declaration. In general, no commercial business signs are permitted.
- 3.11 <u>Improvement Care and Maintenance</u>. Owners shall maintain Improvements at a high level of quality to enable the longevity of the CIC thereby retaining strong property values. If Improvements on a Lot are not maintained, the ARC may request an Owner undertake certain maintenance activities and compliance by the Owner must not be unreasonably withheld.

#### ARTICLE 4. LANDSCAPING

- 4.1 <u>Landscape Design Principals</u>. It is important that landscaping on each Lot be compatible with the CIC's natural setting. All proposed irrigation and planting should work in harmony with the environment, minimizing surface water runoff and avoiding the introduction of invasive species. The location and function of plant materials shall be carefully considered when selecting them. Generally, plants and irrigation approaches should be chosen in consultation with a landscape architect, nurseryman, or other landscape and irrigation design professional for one or more of the following functions:
  - To provide shade;
  - To screen or cover blank walls and exposed foundations (using trees and large and small shrubs);
  - To screen accessory structures, equipment, or utilities (using large shrubs and trees);
  - To buffer from noise, wind, or incompatible adjacent uses (using large shrubs and trees);
  - To provide color during all seasons; To create outdoor spaces or "rooms" for ornamentation or aesthetics;
  - To frame views; and
  - To blend with and provide a natural transition to open space preserves and existing natural vegetation

- 4.2 <u>Landscape Installation and Completion</u>. Landscaping may be installed in the Buffer Zone and Development Zone, provided that any landscaping installed adjacent to a Common Area should preserve and enhance views and provide a natural transition between the Lot and the surrounding amenities. All landscaping must be installed within one year of closing to an Owner, weather permitting.
- 4.3 <u>Vegetation</u>. No specific vegetation is required nor prohibited for landscaping installed on a Lot. A Lot may remain in its natural state, provided that the vegetation on a Lot may not be unsightly as determined by the ARC.

## ARTICLE 5. DESIGN REVIEW PROCESS

- 5.1 Architectural Review Committee. Pursuant to the Declaration, the ARC has been formed and has been delegated certain powers with respect to the review and approval of Improvement and landscaping design and construction. The Association, the ARC, and any of their respective directors, officers, employees or representatives, will not be responsible for or liable for ensuring the structural integrity or soundness of approved projects, nor for ensuring compliance with building codes and other requirements of governmental entities or quasi-governmental entities, nor for ensuring the appropriateness of soils, drainage or general site or geotechnical work. These Guidelines are subject to interpretation by the ARC and the Association and may be modified from time-to-time to meet specific site or functional requirements, consistent with the objectives of these Guidelines and consistent with the Declaration and the Development Agreement.
- 5.2 <u>The Design Review Process</u>. All proposed construction and development on a Lot require review and approval by the ARC in accordance with the procedures set forth in these Guidelines and the Governing Documents. The design review process is intended to be constructive, rapid and responsive, providing guidance to project proponents and assisting in the resolution of design challenges. The design review process is divided into two phases: (i) Presubmittal Meeting; (ii) Design Application submission and review, and (iii) approval or resubmittal of the Design Application.
- 5.3 Presubmittal Meeting. Project proponents are encouraged to schedule a meeting (in-person or telephonically) with a representative of the ARC to review overall site conditions, design objectives and schematic proposals. The presubmittal meeting shall occur no less than 40 days prior to the start date for any proposed construction or development. The presubmittal meeting is intended to establish a constructive, collaborative conversation between project applicants and the ARC, providing for early review and discussion of project design intent prior to the investment of substantial resources in the project design effort. No later than five business days after the presubmittal meeting, the ARC shall notify the project proponent regarding what documents the project proponent is required to submit with the Design Application. Without limitation, the documents that the project proponent may be required to submit include:
  - Site Plan
  - Lot layout with dimensions and square footage of all areas including living space, garages, open space etc.
  - Building footprint and preliminary floor plans
  - Retaining wall locations
  - Driveway location and dimensions

- Preliminary grading and drainage plan
- Proposed and existing location of the Water System and Sewer System
- Elevation, location, and typical detail of all drainage structures and erosion control measures
- Existing grades along the Lot perimeter with all appropriate perimeter cross sections
- Proposed driveway gradients
- Request for over grading and compaction
- Sketches of all proposed front, side and rear elevations (identify proposed architectural style(s)) Roof plan showing roof pitch and overhang
- Meter and HVAC pad locations
- Landscape and irrigation construction drawings
- Design Application Submission and Review. Regardless of whether a project proponent engages in a presubmittal meeting with the ARC as described in Section 5.3, each project proponent must submit a Design Application no later than 30 days prior to the start date for any proposed construction or development. Unless the ARC has notified the project proponent as described in Section 5.3, within five days following receipt of a Design Application the ARC shall notify the project proponent regarding what documents the project proponent is required to submit with the Design Application. The documents that the project proponent may be required to submit are enumerated in Section 5.3. All plans must be prepared by licensed or otherwise qualified design professionals. Submittals that are illegible will be returned unreviewed. The ARC shall review each submittal for its commitment to the overall community vision, standards and adherence to these Guidelines and the Governing Documents. The ARC is not responsible for reviewing submittals for conformance to any applicable codes or standards established by a governmental agency.
- 5.5 <u>Approvals and Resubmittals.</u> No later than 10 business days after receipt of both the Design Application and all of the documents the ARC requires the project proponent to submit with the Design Application, the ARC must notify the project proponent of its determination. All Design Applications reviewed by the ARC will be noted as follows:
  - (1) "Approved" Submittal satisfies all ARC requirements.
  - (2) "Approved with Conditions" Submittal satisfies most ARC requirements but may contain some minor items in need of clarification or correction. Conditions must be addressed prior to final approval.
  - (3) "Address Comments and Resubmit" Submittal contains significant deficiencies, does not conform with these Guidelines or does not address previous comments. Submittal must be resubmitted with all comments addressed.
  - (4) "Denied" Submittal contains items not permitted by these Guidelines or the Governing Documents.

When a Design Application has been approved or approved with conditions, the project proponent may proceed to construction or development pursuant to the Design Application and any conditions imposed by the ARC.

O&M MANUAL FOR TIMBER VALLEY ESTATES

#### RESIDENTIAL DEVELOPMENT

#### 1.0 PURPOSE

This manual is intended to provide general operations and maintenance guidelines for the private roadways and drainage facilities located in the Timber Valley Estates project. The private roads provide access to certain parcels in the project, while other parcels have access to the public roads. The drainage facilities serve the runoff from the public roads, private roads, and private driveways where draining to the road system ditching. Implementation of these guidelines will ensure that the private roads and drainage facilities installed will function as intended in the design.

As provided for in the DECLARATION OF COVENANTS, CONDITIONS, RESTRICTIONS AND EASEMENTS FOR TIMBER VALLEY ESTATES, recorded under Spokane County Auditor File Number 70033308, the Timber Valley Estates Homeowners Association (Association) is responsible for these maintenance activities.

#### 2.0 INTRODUCTION

The private roads of West Findley Lane and West Slaton Lane provide access to those certain parcels that have frontage on these roadways. Other parcels in this project have frontage on public roads, which are not subject to the requirements of this manual, as they will be maintained by Spokane County.

Given the rural location and low density of this development, the project utilizes Natural Dispersion to dispose of the stormwater runoff from the public and private roadways. This method minimizes the hydrologic changes created by new impervious surfaces by maintaining the natural drainage patterns of sheet flow and infiltration. With the relatively low slopes on the project, Sheet Flow Dispersion was utilized along the roadways, in conjunction with the Vegetated Buffer Strips. In addition, Full Dispersion will also be implemented, as the majority of the project site preserves native vegetation.

At locations where the roadway grading required the construction of conveyance ditches behind the Vegetated Buffer Strips, along with culverts to convey the ditch flows. Stormwater flow from these ditches is conveyed to large pond areas, which also mimic the natural conditions found in the localized depressions located throughout the site.

#### 3.0 GENERAL OPERATIONAL CHARACTERISTICS

The private roadways of West Findley Lane and West Slaton Lane are constructed of a Bituminous Surface Treatment, which is often referred to as a Chip Seal. The pavement surfacing on these

roadways will require periodic maintenance to preserve the integrity of the surfacing and structural support of the roadways.

The drainage facilities are generally very simple, functional, and have low maintenance requirements. The storm drainage ditches convey the storm water from the roadways to the culverts and discharge to the ponds. Most maintenance will consist of keeping the ditches and culverts free of debris and sediment.

A periodic visual inspection of the roadways and drainage facilities will identify any required maintenance. However, a specific inspection schedule should be followed. See Section 4.0 for recommended maintenance schedules.

#### 4.0 MAINTENANCE REQUIREMENTS AND SCHEDULES

Following is a maintenance description for each of the private road and drainage system elements. All private roads and drainage facilities serving the project are expected to be maintained by the Association.

#### 4.10 Public Roads

The public roads of North Tudor Road, West Slaton Road, and East Slaton Road will require no maintenance from the Association. Any periodic damage that may be recognized should be reported to Spokane County for maintenance. This includes the pavement surface, and the vegetated buffer strips, ditches and culverts that handle stormwater runoff from the public roads. The stormwater pond located on Parcel 2, which serves Tudor Road, will be maintained by the Association.

#### 4.20 Private Roads

The private roadways of West Findley Lane, West Slaton Lane, and the Private Driveway will require maintenance of the pavement surfaces. The roads are constructed of a Bituminous Surface Treatment (BST), which is often referred to as a Chip Seal. The surfacing on these roadways will require periodic maintenance to preserve the integrity of the surfacing and structural support of the roadways. Ongoing maintenance will include repairing any pavement cracks or potholes. Long-term maintenance will require the application of a new layer of BST. Both ongoing and long-term maintenance activities should be completed by a qualified paving contractor to ensure the maintenance is completed properly in order to protect the integrity of the roads. Proper maintenance will increase the overall lifespan of the roadways.

Frequency of Inspection: Yearly visual observation, typically done in spring to check for winter damage. Yearly inspections can be completed by a designee of the Association, but it is recommended that a paving contractor inspect the roadways at least every five years in order to monitor the performance of the BST surfacing. A new layer of BST surfacing should be applied

when indicated by the paving contractor, to preserve and protect the existing surfacing layers along with the structural gravel base of the roadway. Failure to maintain a competent pavement surface can lead to increased damage to the overall roadway, which greatly increases the cost of repairs.

#### 4.30 Vegetated Buffer Strips

The Vegetated Buffer Strips consist of the area just beyond the gravel shoulders. These strips are 6 feet wide, and are vegetated with native dryland grasses. Maintenance includes removing noxious weeds that can out-compete the native grasses, and removing any trash or debris. In areas where the strips may lose the vegetated cover, the areas should be reseeded with a native dryland grass mixture. Re-seeding is best accomplished in spring where several adequate months of precipitation is customary or by dormant seeding in late fall.

Frequency of Inspection: Yearly visual observation.

#### 4.40 Drainage Ditches

The stormwater conveyance ditches are planted with native grasses to aid in reducing the potential for erosion, but can be subject to erosive damage from significant rainfall events. Monthly maintenance and inspections of these ditches will include removal of any accumulated debris, such as leaves, weeds and trash. Any obstructions, which would not allow water to flow freely through the ditches, should be removed. Additionally, the side slopes of the ditches should be inspected to ensure that they are in good repair and structurally competent and that no erosion of the ditch side slopes or bottom has occurred. Where erosion has occurred, the ditch side slopes and bottom can be stabilized with additional native soils and reseeded with a native dryland grass seed mixture. In areas where significant erosion keeps re-occurring, hand-place riprap can be utilized.

Frequency of Inspection: Monthly, and after every significant storm event & snow melt event.

#### 4.50 Culverts

Visually inspect the culverts, making sure they are clear of debris and checking that the pipe is in good condition, without breaks or cracks. Any accumulated debris, including gravel, soil, plant matter, or trash should be removed. Driveway culverts will need to be placed in the channel flow-line to Pond B on Parcels 11 and 12 at the time of the residential permits.

Frequency of Inspection: Yearly visual observation.

#### 4.60 Drainage Ponds

The ponds consist of large depressions located within drainage easements, and are planted with native dryland grasses. The maintenance of the ponds will include removal of any accumulated debris, such as leaves, weeds and trash. Any obstructions, which would not allow water to flow freely from the ditches into the ponds should be removed or repaired. In areas where the ponds may lose the vegetated cover, the areas should be reseeded with a native dryland grass mixture. Since these ponds are large and vegetated with native grasses, in is not anticipated that the soils or vegetation will need replacing.

Frequency of Inspection: Yearly visual observation.

#### 5.0 MAINTENANCE AND REPLACEMENT COSTS

There will be annual costs to maintain the private roadways and drainage facilities. Similarly, there will be replacement costs and major renovation costs of all private roadways and drainage facilities, which will occur in the future. These costs are the responsibility of the Association or its successors in interest. Future replacement and major renovation costs have been converted to annual costs, in the form of recommended set-aside funds.

The estimated annual maintenance costs and recommended annual set-aside costs are listed below in Table A. It is recommended that the Association set aside these funds annually to ensure that adequate maintenance and replacement measures of the private roadways and drainage facilities will be implemented.

**TABLE A** 

DRAINAGE FACILITY	ANNUAL MAINTENANCE	ANNUAL SET-ASIDE FUNDS FOR FUTURE RENOVATION OR REPLACEMENT
Private Roads	\$5,000	\$20,500
Ditches	\$1,000	\$0
Culverts	\$500	\$500
Ponds	\$500	\$0
SUB-TOTAL ANNUAL COSTS	\$7,000	\$21,000
TOTAL ANNUAL COSTS	\$28,000 \$350 PER PARCEL	

Note – Costs for future roadway renovations may vary significantly based on the adequacy of annual preventative maintenance. Costs include allowances for inflation.
